TEACHING EXCELLENCE AT SLC

St. Lawrence College

Collaboratively developed by faculty and staff, the SLC Teaching Excellence Framework articulates our commitment to creating meaningful teaching and learning experiences across all learning environments.

Learning Environment
Create physical, social, and emotional learning environments that foster belonging and inclusion.

Facilitation
Use diverse teaching strategies to explore content, foster discussion, and support active learning.

Subject Matter Expertise
Leverage storytelling and discussion to share knowledge, skills, and experiences related to one's discipline or way of being.

Lesson Planning
Develop learning materials by effectively aligning outcomes, content, resources, and activities.

Assessment & Feedback
Design assessments that prioritize authentic learning using an aligned curriculum, detailed rubrics, and opportunities for constructive feedback.

Digital Technology
Integrate digital learning strategies across all forms of instruction using appropriate digital tools and vocational technologies.

Applied Research & Scholarship
Produce new forms of knowledge by leveraging research to explore innovative teaching practices and industry partnerships.

Reflection & Professional Development
Reflect on one's teaching practice by responding to learner feedback, engaging in classroom observations, and setting personal learning goals.
