WINTER 2021 - BROCKVILLE CAMPUS
INTEGRATED DUAL CREDIT COURSES

School of Business

Principles of Human Resources Management (45 hours)

SLC Course Code HUMA 53	Human Resources Management is intended to provide students with an understanding of human resources management functions within organizations. The course provides and introduction to the purpose and the application of Human Resources activities which will assist organizations in achieving their goals and objectives. This course is designed to lay the groundwork for more advanced studies in Human Resources and related subjects. ***Related programs:*** *Business Administration, Fundamentals, Marketing, Accounting or Human Resources and General Arts and Science*
Ministry Course Code BOO4T	
Allocated Seats 5	

Introductory to Marketing (45 hours)

SLC Course Code MARK 201	This course is designed to introduce students to the principles and practives of marking and marketing management in both small and large organizations. It provides a framework for marketing decisions from which students can proceed to more advanced courses in the discipline of marketing. Related programs: Business Administration, Fundamentals, Marketing, Accounting or Human Resources and General Arts and Science
Ministry Course Code BMN4T	
Allocated Seats 5	

School of Community Services

Criminology - Police Foundations (45 hours) *** NO SEATS LEFT***

SLC Course Code POFP 201	This course provides an examination of various theoretical explanations of criminal and deviant behavior including the sociological, biological and psychological perspectives. Criminological theory is related to various types of criminal activity and the reality of crime in Canada including victimology is examined through crime statistics and issues of criminal behavior. The impact on theory on the development and effectiveness of the criminal justice system is discussed with an emphasis on future trends within the system. ***Related Programs:*** *Police Foundations*
Ministry Course Code HCC4T	
Allocated Seats 8	

First Nations People Issues in Diversity - Police Foundations (45 hours)

SLC Course Code GENE 167	This course examines diversity in Canadian society from both a multicultural perspective and in terms of its Aboriginal Peoples. Of particular focus is the history and culture of Aboriginal Peoples in order to build a better understanding of the issues facing this population in contemporary Canada. Students also study the provincial and federal legislation relevant to social diversity. ***Related Programs:*** *Police Foundations and can be used as a general elective credit in other programs*
Ministry Course Code NAH4T	
Allocated Seats 9	

Behaviour Interventions (45 hours) **Pre-requisite CAYW 113

SLC Course Code CAYW 122	This introductory course in therapeutic strategies emphasizes the basic behaviour management techniques necessary for managing individuals and small groups. Learners will be introduced to applied behavioural analysis techniques, life skills training, and behavioural intervention strategies as effective ways to manage, alter and redirect challenging and atypical behaviours. The learners are presented with techniques to evaluate the level of relationship between them and the child/youth and to intervene in ways to enhance this relationship through behavioural interventions. ***Related Programs:*** *Child & Youth Care*
Ministry Course Code HIG4T	
Allocated Seats 5	

Therapeautic Milieu (45 hours)

SLC Course Code CAYW 124	This is an introductory course in therapeutic environments. The course focuses on understanding the child's environment from five different perspectives physical, emotional, social, cultural and ideological). It provides learners with strategies to enhance these perspectives through the therapeutic milieu. ***Related Programs:*** *Child & Youth Care*
Ministry Course Code TOU4T	
Allocated Seats 4	

School of Health Sciences

Personal Support Worker - Common Health Challenges & Care Needs **Pre-requisite: PSWO 1100 (45 hours) ** 2 seats left**

SLC Course Code PSWO 2000	This course introduces the student to common health challenges or conditions that occur within the human body. Concepts of maintenance, rehabilitation, safety and restorative care are discussed. *Note: Students must have successfully completed PSWO 1100 in the Fall semester to enroll* ***Related Programs:*** *Personal Support Worker*
Ministry Course Code PHB4T	
Allocated Seats 5	

Winter 2021 Cornwall Integrated

School of Applied Science and Computing

Object Oriented Programming - **Must have Prerequisite: Game 102 (75 hours)

SLC Course Code GAME 202 **Ministry Course Code** IBV4T **Allocated Seats** 2	This course introduces the student to the concepts of object oriented programming (OOP) used in the making of modern video games. Topics include the basics of object oriented design such as inheritance, encapsulation, abstraction and polymorphism. This course explores these concepts using C++, the programming language most widely adapted by the video game industry. Students obtain hands-on experience through lab and lecture creating their own classes, using existing classes and incorporating multimedia libraries to build interactive 2D games. Students are also introduced to the Standard Template Library of C++ and explore algorithms, containers and iterators via in lab activities.

Mobile Development (45 hours) ** Prereq GAME 111

SLC Course Code GAME 211 **Ministry Course Code** **Allocated Seats** 2	In this course students create mobile web apps and games while studying the differences between console and mobile games hardware, design, and economics. Through a combination of labs and in class activities, students learn advanced HTML5, JavaScript and CSS to create games and format visuals to support a wide variety of device resolutions and dimensions. Students build fully functional mobile games which include user input (touchscreen and mouse), animation of characters, 2D physics, sound effects, music and the loading of images and JSON files. Students build a progressive web app (PWA) that emulates an iOS & Android app experience which is accessible offline and also leverages the use of the devices camera and the ability to send push notifications when applicable.

Programming Fundamentals II (45 hours) ** Prereq GAME 102

SLC Course Code GAME 210 **Ministry Course Code** TQL4T **Allocated Seats** 2	In this course, students are taught intermediate programming concepts available through the use of C++. Students learn about bitwise operations, file streaming, exception handling, and string manipulation. Students are also introduced to recursive functions and learn how to solve programming problems recursively. Through lab and class activities students create projects which interact with a game controller and save/load data from text files.

School of Business

Introductory Accounting I (45 hours)

SLC Course Code ACCT 1	Introductory Accounting, parts I and II are intended to give an introduction to accounting and its role in the business community. As such, the courses are designed to lay the groundwork for more advanced studies in accounting and related subjects. This course satisfies a part of the student's basic business education. ***Related Programs:*** *Business*
Ministry Course Code BAA4T	
Allocated Seats 6	

Introductory Accounting II - **Must have Prerequisite: ACCT 1 (45 hours)

SLC Course Code ACCT 2	This course is a continuation of ACCT 1, with emphasis on plant assets and equipment, periodic and perpetual inventories, current and long-term liabilities, partnerships, corporations, and a computerized accounting applications unit. *Note: Students must have completed ACCT 1 - Introductory Accounting I to take this course* ***Related Programs:*** *Business*
Ministry Course Code BAJ4T	
Allocated Seats 3	

Introduction to Canadian Business (45 hours)

SLC Course Code ADMN 1000	This course provides an overview of how businesses function in general and, specifically, reviews business within the Canadian context. Course content examines the relationships between the organization and its owners, employees, customers, suppliers, governments and the community. The course also provides an overview of the various functional areas within a typical organization. The current Canadian business environment is discussed. ***Related Programs:*** Business
Ministry Course Code BBJ4T	
Allocated Seats 6	

Principles of Human Resource Management (60 hours)

SLC Course Code ESTH 43 **Ministry Course Code** TXI4T **Allocated Seats** 6	This course is designed to teach you the theory and practical skills of makeup application. Topics include: morphology, facial shapes and balance, color classifications, observations and factors to consider prior to make-up application, proper steps and techniques involved in makeup application, supplies, brushes products used and their ingredients. At the end of this course you will be able to create and apply a variety of make-up styles suitable for day, evening, bridal and special events. *Related Programs:* *Esthetics*

School of Business

Bookkeeping (45 hours)

SLC Course Code ACCT 26 **Ministry Course Code** BAD4T **Allocated Seats** 5	This course enables the student to develop an understanding of the systems and methods of applying the principles and concepts of bookkeeping. Students learn a systematic approach towards completion of the accounting cycle for both a service and merchandising operation. Peripheral areas include internal control of a petty cash fund and preparation of a bank reconciliation statement. *Related Programs:* *Office Administration General, Legal or Medical*

Criminal Law- Law Clerk (45 hours)

SLC Course Code BLAW 1014 **Ministry Course Code** TBA **Allocated Seats** 2	This course presents a summary of some of the main principles of criminal law, together with a survey of the frequently encountered crimes under the Criminal Code (Canada). It also presents, in greater detail, the procedure in criminal cases from the laying of change through to conviction or acquital. *Related Programs:* *Law Clerk*

Electronic Spreadsheets (45 hours)

SLC Course Code OFAD 90 **Ministry Course Code** IBF4T **Allocated Seats** 5	This course introduces first-year students in the Office Administration - General program to core elements (organize data, complete calculations, graph data, and develop professional looking reports) of MS Excel 2013 spreadsheet software. *Related Programs:* *Office Administration General, Legal or Medical*

Introductory Accounting I (45 hours) - 7 week block (3-4 days a week, 2 hour classes per day)

SLC Course Code ACCT 1 **Ministry Course Code** BAA4T **Allocated Seats** 3	Introductory Accounting part I and II, are intended to provide an introduction to accounting and its role in the business community. As such, the courses are designed to lay the groundwork for more advanced studies in accounting and related subjects. This course introduces the student to how accounting information is used by and meets the needs of both internal and external users through effective and efficient communication, as well as what accounting information is required by a business concern to clearly reflect the operating results of the enterprise over its operating life. Throughout the subject, students will be introduced to generally accepted accounting principles, the interpretation and preparation of financial statements and how this information is recorded in the various business records. *Note: Students should have completed Grade 11 college math, at a minimum for this course* *Related Programs: Business Administration, Human Resources, Fundamentals, Accounting or Marketing*

Introductory College Communications (45 hours) - 7 week block (3-4 days a week, 2 hr classes per day)

SLC Course Code COMM 34 **Ministry Course Code** EBH4T **Allocated Seats** 3	This course is designed to help students to develop and practice the communication skills needed in order to succeed both in college and in their professional careers. The course will cover the basic elements of effective communications with emphasis on the writing process. In addition students will have the opportunity to practice such receptive skills as listening, researching and reading. This course will prepare students for the more advanced communications courses. *Related Programs:* *Business Administration, Human Resources, Fundamentals, Accounting or Marketing and Office Administration General, Legal or Medical*

Introductory to Human Resources Management I (60 hours) - 7 week block (3-4 days a week, 2 hr classes per day)

SLC Course Code HUMA 53 **Ministry Course Code** BOO4T **Allocated Seats**	Introductory Human Resources is intended to give an introduction to the purpose, functions and application of Human Resources Management activities and principles which will assist an organization in achieving their primary goals and objectives. *Related Programs:* *Business Administration, Human Resources, Fundamentals, Accounting or Marketing*

	3	

Introductory Marketing I (45 hours) 7 week block (3-4 days a week, 2 hr classes per day)

SLC Course Code MARK 201 **Ministry Course Code** BMB4T **Allocated Seats** 3	This course is designed to provide students with a sound grounding in the field of marketing. Emphasis is placed on the formulation and management of integrated marketing strategies which play a role in achieving organizational objectives. The first segment of the course concentrates on the role of marketing in contemporary organizations and the environments affecting marketing practice. The second segment dwells on strategic planning procedures, market segmentation, information collection and buying behaviour principles. The third segment examines the first element of the marketing mix in detail: product strategy and management. ***Related Programs:*** *Business Administration, Human Resources, Fundamentals, Accounting or Marketing*

Computer Application Fundamentals (45 hours) 7 week block

SLC Course Code COMP 222 **Ministry Course Code** TBD **Allocated Seats** 2	This is an introductory computer course that familiarizes students with the functionality of internal college systems and the current version of Microsoft Word, Excel, and PowerPoint. It also explores theory and concepts of computer hardware and software, with a hands-on introduction to the Windows operating system, file management techniques, and Internet browsers. This course allows students to navigate through the software applications and learn how to create effective documents, spreadsheets and presentations. ***Related Programs:*** *Business Administration, Human Resources, Fundamentals, Accounting or Marketing*

Introductory Business Mathematics (45 hours) 7 week block

SLC Course Code MATH 35 **Ministry Course Code** TBD **Allocated Seats** 2	The purpose of this course is to prepare students to be successful in business and financial mathematics. This course emphasizes the development of business-related numeracy and algebraic skills. Topics covered include order of operations, percentages/fractions/ratios, exponents, logarithms, algebra, linear equations, linear systems, linear inequalities, and simple and compound interest. These topics are applied to business concerns such as taxation, allocation, currency conversion and the consumer price index. Graphical optimization to maximize profit and minimize costs is addressed. ***Related Programs:*** *Business Administration, Human Resources, Fundamentals, Accounting or Marketing*

Macroeconomics (45 hours) 7 week block

SLC Course Code ECON 2 **Ministry Course Code** TBD **Allocated Seats** 2	Macroeconomics introduces the student to the workings of our economy at large. In particular the student is introduced to the concepts and interrelationships between the following macroeconomic variables: GDP, the price level and inflation, real GDP, the unemployment rate, interest rates, stock prices, the foreign exchange rate, and the balance of international payment. Emphasis is placed on the practical application of the foregoing topics towards understanding how current events of either a private or government nature affect the economy at large. ***Related Programs:*** *Business Administration, Human Resources, Fundamentals, Accounting or Marketing*

Workplace Dynamics and Behaviour (45 hours) 7 week block

SLC Course Code AMDN 2000 **Ministry Course Code** TBD **Allocated Seats** 2	This course introduces students to some critical issues in workplace dynamics and behavior such as corporate responsibilities, ethics, customer service, critical thinking and diversity. Through the use of case studies, team work, and discussion of various current events, videos and readings it equips students to more effectively handle some of these challenging issues in the business environment. ***Related Programs:*** *Business Administration, Human Resources, Fundamentals, Accounting or Marketing*

Operations and Supply Chain Management (45 hours)

SLC Course Code AMDN 1100 **Ministry Course Code** TBD **Allocated Seats** 2	This course provides the students with an opportunity to explore the field of Supply Chain Management and Logistics. The course will expose the students to theory regarding topics including: Just-in-Time Delivery, Lean Supply Chain Management and Supply Chain Risk Management. The course will also explore popular management strategies that focus on utilization, inventory analysis and turns, outsourcing/offshoring, supplier relationships and acceptable vulnerability in the field. ***Related Programs:*** *Business Administration, Human Resources, Fundamentals, Accounting or Marketing*

Business Law: Contract/Tort (45 hours)

SLC Course Code BLAW 1 **Ministry Course Code** TBD **Allocated Seats** 2	This course introduces the Canadian legal system as it relates to the business community. Students study key legal concepts and practices including tort law (both intentional and unintentional), contract law, professional liability, employment law, international law, privacy law, and environmental law. This course provides students with an understanding of the foundational legal principles, with an emphasis on contracts, that govern all business interactions. ***Related Programs:*** *Business Administration, Human Resources, Fundamentals, Accounting or Marketing*
