

Annual Tuberculin Skin Testing
(Mantoux)

As a returning student, if your placement occurs within a healthcare setting, a yearly one-step TB test is required. If your placement occurs outside of a healthcare setting, the need for an additional one-step test will be determined by your placement agency. Be sure that your TB test result (amount of induration) is measured in mm; “positive” or “negative” is not sufficient.

Student Name (please print): _____

Student #: _____

Date of Birth (mm/dd/yy): _____
