## **On The Cover:**

### **Ontario Colleges 1992-93 Marketing Competition Winners**

For as long as the OCMC has challenged marketing students from colleges across Ontario, St. Lawrence students have been near the top. See page 12 for more on this year's competition.

*Left to right are:*

*Tina Romeo, Rob Gentile,  
Susan Johnston, Megan Leverette,  
Polina Shadman(seated)  
Administration - Marketing (Kingston)*

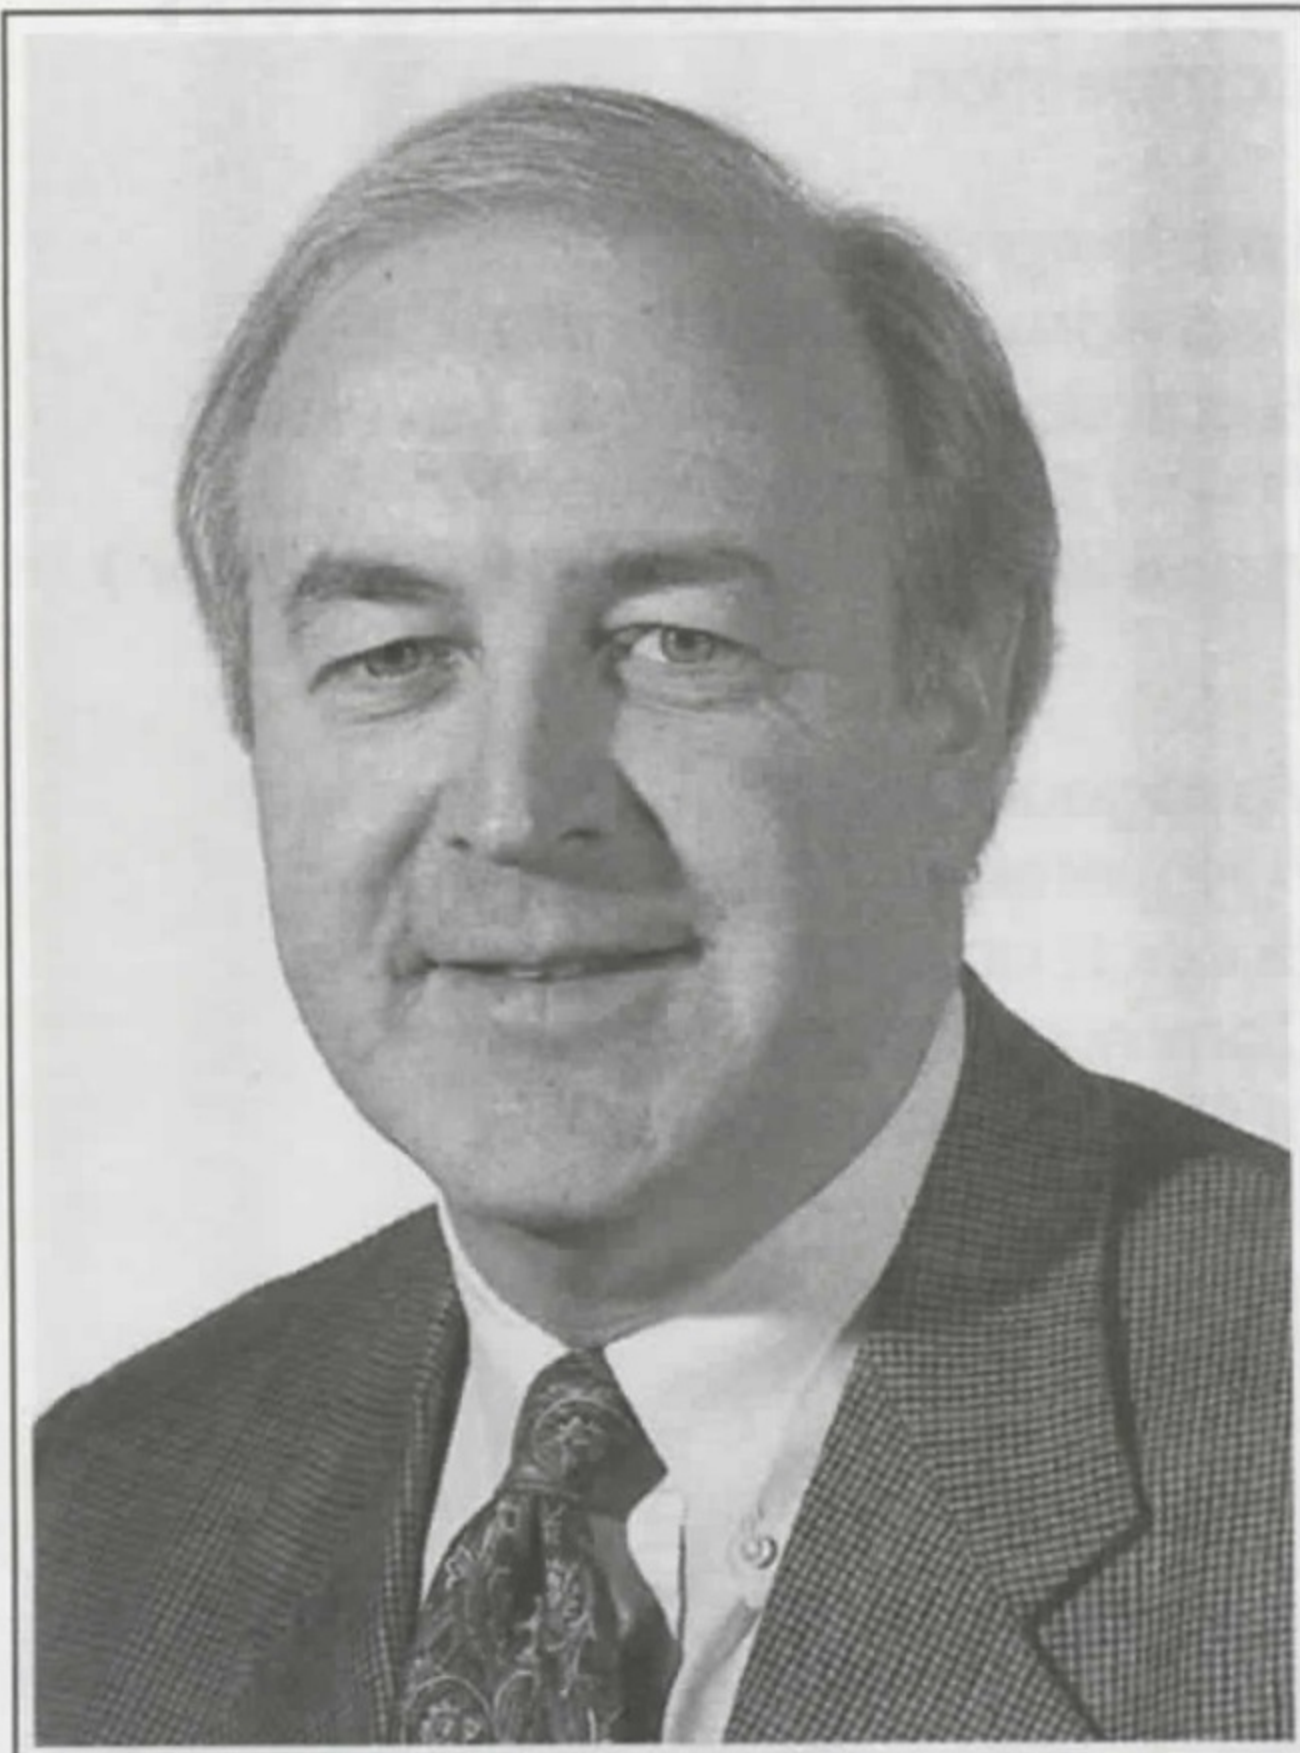

Voyageur Magazine is published in November, March and May of each academic year by the Communications Department of St. Lawrence College.

*Alumni enjoy the afternoon casino at Cornwall's Homecoming.  
(See page 10).*

# Structural Change Will Improve Efficiency

By Dan Corbett  
President

The reality is that the restructuring of the global economy is far from over. As the citizens of Ontario respond to this new environment by developing new skills, the services of our colleges will continue to be in great demand. At the same time, the Province's fiscal difficulties are also far from over. Social Contract negotiations were aimed at simply keeping the deficit at a manageable level, not at eliminating it. It's clear that we'll have to do more with less.

Here at St. Lawrence, we've been responding to this challenge by streamlining our operations and making them more efficient. Of particular note is the reduction of our college divisions from six to four, and the restructuring of our academic division into five, tri-campus Schools. To function effectively with this leaner management structure, we must focus on empowering our work groups to trust their own skills, knowledge, and judgement to make decisions which will best meet the needs of our customers.

With this new structure in place, I believe we will be well-positioned to carry out our strategy of becoming a quality institution. We are one of the few colleges anywhere that is implementing the tools and techniques of Total Quality Management on both the administrative and academic sides of our operations. I firmly believe that as we proceed with the implementation of this strategy, we will successfully become a center of college excellence in Ontario.

---

## Join Us To Hear About Eastern Ontario's Labour Market Outlook

Our Eastern Ontario Regional Economist, Franka Piccin, will be presenting the latest trends in the workforce as they apply to our part of the province. Franka will be at all three campus locations in the next month:

**In Kingston:**

Wed., Nov. 3, 12:30pm-2pm, Rm D155

**In Brockville:**

Wed., Nov. 17, 12:30pm-2pm,  
Rm 109\112

**In Cornwall:**

Wed., Dec. 1, 12:30pm-2pm, Rm M362

Franka Piccin is with the Economic Services branch of Human Resources and Labour Canada, formerly Canada Employment and Immigration.

# Changing Environment Demands Focused Strategy

*Recently, St. Lawrence retained the services of Price Waterhouse to conduct an analysis of the competitive environment in which we operate.*

# TQ

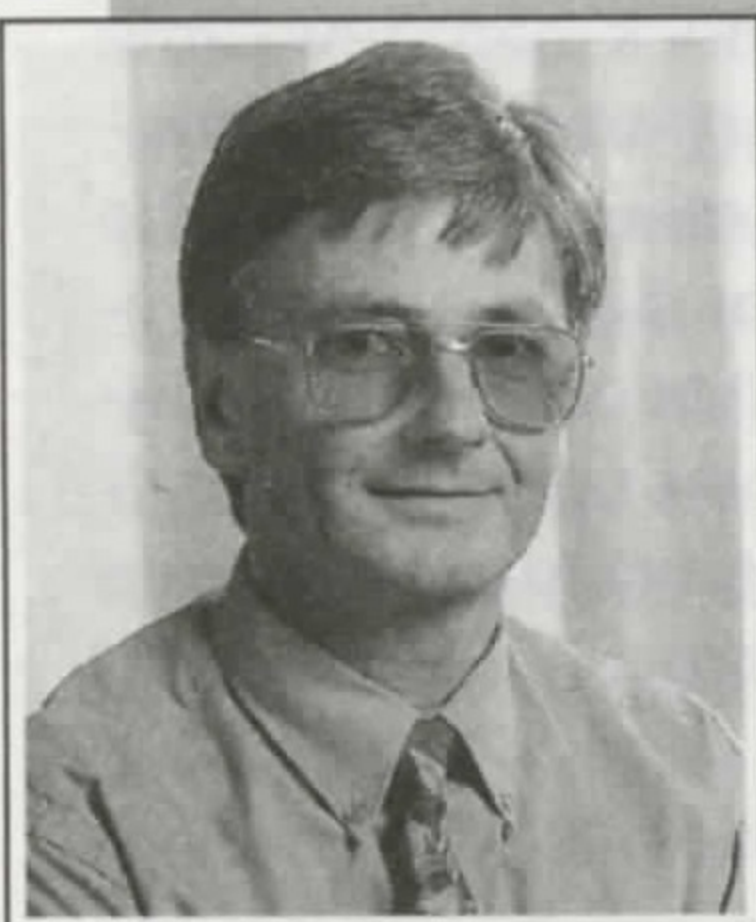

The consulting firm spent 3 months examining our strengths and weaknesses relative to the opportunities and threats in the environment, including the competitive threats poised by other colleges, school boards, and private trainers. What emerged from the analysis was the idea that St. Lawrence could best capitalize on opportunities in the marketplace and defend itself from competitors by positioning itself as a Total Quality institution.

In the last issue of *Voyageur*, Total Quality Facilitator Diane Lalonde explained the nature of TQ and how we're going about implementing it at St. Lawrence. Though other colleges are doing it too,

what makes us unique is our goal of implementing Total Quality on both the administrative and academic sides of our operation. We will be using the principles and practices of Total Quality to not only make our operations more effective but also to differentiate our graduates from other colleges. For example, we believe (and our research supports the notion) that a graduate of a business or engineering technology program who is schooled in the application of TQ practices, will be more marketable than one without those skills.

The change won't take place overnight, but in the issues [of *Voyageur*] to come, you will clearly see our progress toward this goal.

## Tony Barnes New Chair Of The Board Of Governors

Tony Barnes is a business graduate of the Manchester College of Commerce in England and a Fellow of the (UK) Chartered Institute of Management Accountants.

He was transferred from the UK in 1980 as controller of Henderson Barwick, a stainless steel pipe manufacturing plant in Brockville.

For the last ten years, Tony has been the General Manager of the plant, responsible for all aspects of production, marketing and administration. In November 1989, the plant won national honours for productivity in the Canada Awards for Business Excellence program. In January 1993, the plant became the first in its field in Canada to receive the ISO 9002 certification.

Since the mid-eighties, Tony has been active on the training scene as a member and eventual Chair of the Leeds and Grenville Skills Training Committee. He has been a Director and Treasurer of the

Brockville District Chamber of Commerce and joined the Board of Governors of St. Lawrence College in January, 1991. He is also a Board member and Finance Committee Chair of the St. Vincent de Paul Hospital in Brockville.

Tony is married to Jennifer, who teaches in the primary division of the Leeds and Grenville Public School Board. They have two children, a daughter in high school and a son attending St. Lawrence College, Cornwall campus, in the Marine Engineering Program.

# Strong Alliances Are Formed Through Committees

In early July of this year, president Dan Corbett received a letter from an advisory board member.

It read like this:

*"I am compelled to write this letter to express my appreciation of your organization's openness to associates. As an advisory board member, I play a small part in the overall activities within St. Lawrence College yet I feel that I am an integral part of the [College] community. This feeling comes from your policy of inviting associates to various college functions, considering associates for special activities and providing regular copies of the College News.*

*In my opinion, you are definitely doing the right thing right".*

Signed,  
Gary Bazowsky-  
CET, Section Manager  
Professional Development  
Bell Canada.

At our College we have an active advisory committee for each academic program at each of our campuses. We are indeed fortunate to have approximately 65 advisory committees, all made up of volunteers from our communities. In fact, throughout all of Ontario, advisory committees have been established to assist each community college's Board of Governors (BOG) with advice about programming, i.e. currency of program offerings, community needs, etc.

Advisory committees are made up of experienced professionals who help us to be more realistic in our program development and in our educational services. People in our communities see the knowledge we teach being put into productive practice every day. Who better to provide practical, meaningful recommendations?

Advisory committees are appointed by the College's BOG and we encourage graduates of our programs to become involved as committee members. Consistent with provincial guidelines, the normal term of office for a committee member is three years and members may be re-appointed for a successive three-year term.

Gary Bazowsky has been on the Business Technology Advisory Committee for just over two years. When he was asked what prompted him to write the letter, he said "I've felt that way for the longest time." He recalled attending a convocation in February and sitting in the audience. He thought, "Here I am; they've taken the time to invite us."

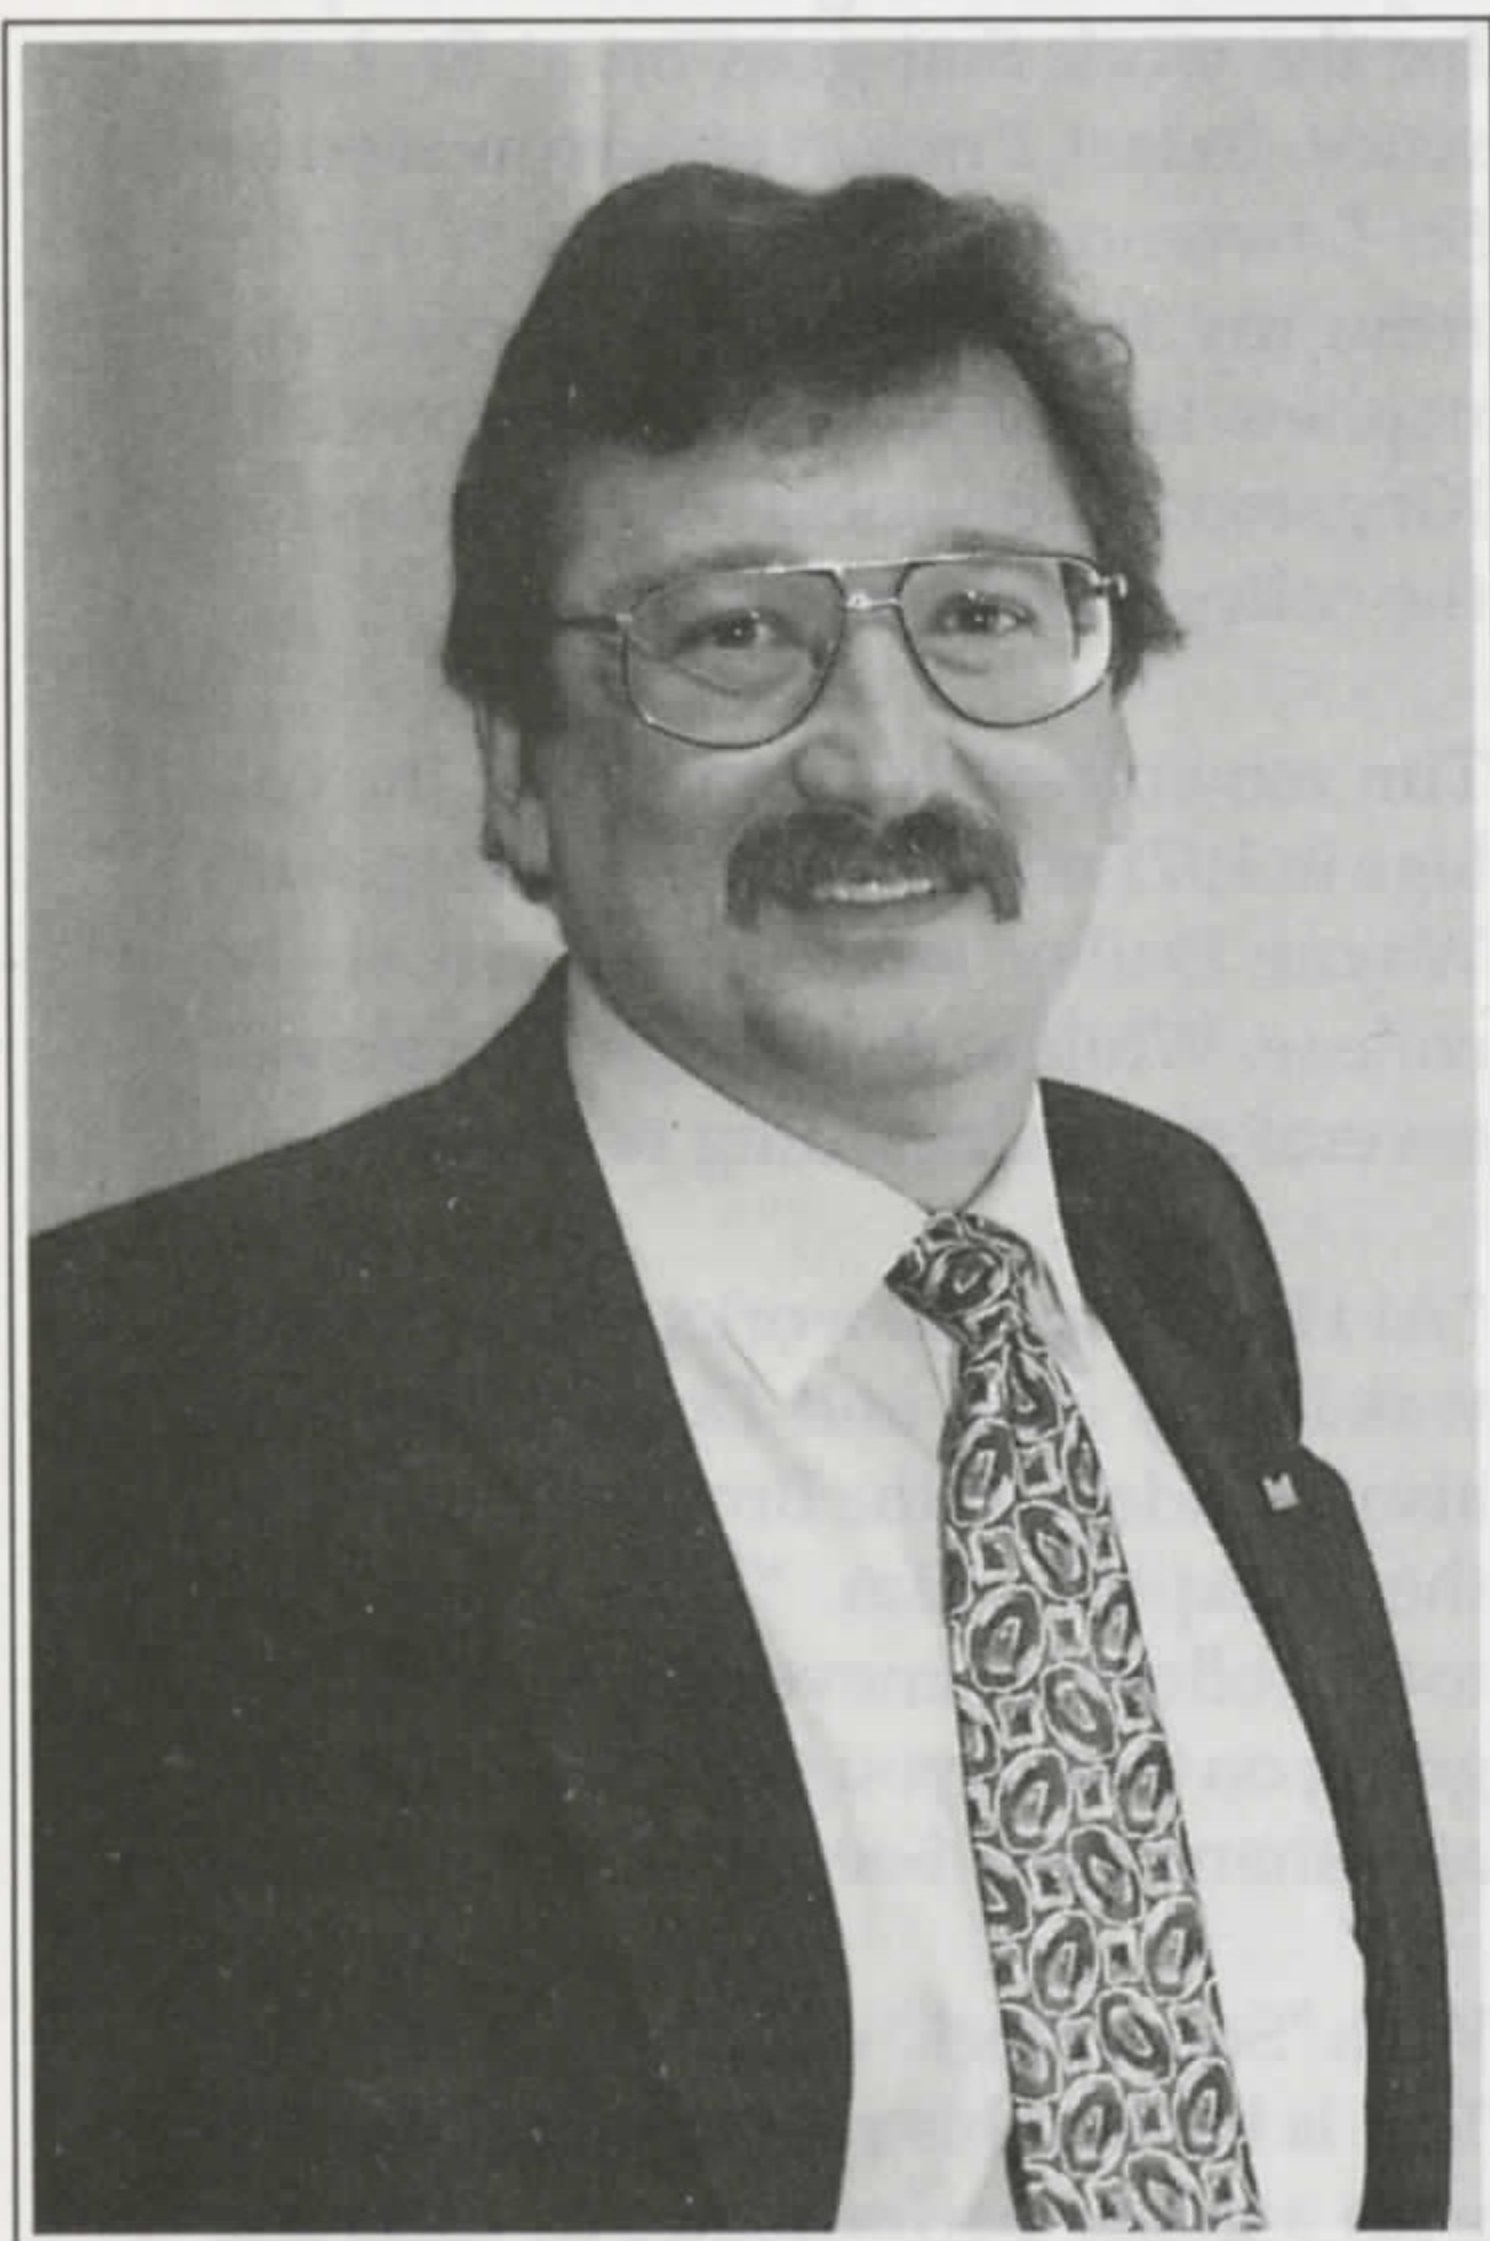

It's not just the convocation invitations. It's the Career Day invitations, special committee work, being provided with access to OfficeVision, the College's electronic mail system, and being asked to provide opinions above and beyond the advisory committee agenda. "They're perhaps minor [to college staff] but every gesture of this kind draws us closer", says Gary. He enjoys meeting the students at the advisory committee meetings and then later seeing them at convocation. That's what Gary calls "involvement".

When the idea of a mock interview came up at a meeting, Gary and his Bell associates in Human Resources set up the whole process from fictional employment advertisement to employment interview. They teamed up with the Bell Canada office in Ottawa to play the role of the hiring company.

It turned out to be one of Gary's fondest memories for when one particular interview was done, the student mentioned in passing that it was a good thing he/she had driven up on the weekend to find the place because the student had car problems that morning before the interview. Gary and his team

# College Advisory

were shocked! "This person made no mention of the problem before the interview. This person was on time for it and handled it well. We had no idea it meant so much!" Gary added that it was a real learning experience - for them. When asked if he would do it again, he said he would like to "if it was deemed something useful".

That's what it is all about for advisory committee members like Gary. He feels strongly that if he and his colleagues in industry don't tell us what they need, no one will. "Don't rely on the politicians", he added.

Gary sees Canada as needing more doers rather than just thinkers. He feels that doers can become thinkers later on. That is one reason why he likes the Business Technology program. It combines doing and thinking.

On-the-job training is Gary's responsibility at Bell. "The company expects that our people are capable when they apply for a position; otherwise they aren't hired". The kind of training that Gary's group does is a blend of both system-wide programs such as Total Quality and more tailored programs. For example, the role of the technician is changing. According to Gary, technicians have become more than just "fixers". They also have to assume the role of "changers", using a broader systems analyst approach. For this, the professional development team provides training in technical as well as business skills.

Gary sees his role on our advisory committee as one of an influencer. Bell Canada knows, as do most Canadian firms, what their future needs are. There is a team in place at Bell that forecasts those needs. What Gary learns, he passes along to us.

Gary participates on other advisory committees at other colleges. He said that when he compares all these committees, he attempts to convince the others to model themselves on our format.

Gary used the term "associate" several times during our interview. It seems more appropriate these days.

## St. Lawrence Grads Tied For Best In The Province!

In a recent survey conducted for the Ontario Colleges of Applied Arts and Technology, St. Lawrence tied with Georgian College for top spot in overall Related Employment for the 1991/92 graduating class. Here's how it breaks out:

| College            | Overall Employment | Related Employment |
|--------------------|--------------------|--------------------|
| Georgian           | 89%                | 70%                |
| St. Lawrence       | 87%                | 70%                |
| Seneca             | 85%                | 65.5%              |
| Sheridan           | 83.3%              | 62.6%              |
| Conestoga          | 82.8%              | 61.8%              |
| Humber             | 82.6%              | 62%                |
| Algonquin          | 82%                | 62%                |
| Fanshawe           | n/a                | n/a                |
| Loyalist           | 82%                | 56%                |
| Confederation      | 80%                | 57%                |
| Niagara            | 77%                | 59%                |
| La Cite Collegiale | n/a                | n/a                |
| Lambton            | n/a                | n/a                |
| Centennial         | 76.7%              | 45.9%              |
| Mohawk             | n/a                | n/a                |
| Durham             | 75.4%              | 60.2%              |
| Northern           | n/a                | n/a                |
| George Brown       | 75%                | 91%                |
| Cambrian           | 75%                | 54%                |

## Alumni Profile...

By Frank Lockington, (APR/83)

# Tim Walsh, actor and entrepreneur

The upcoming presentation of *Guys and Dolls* at the Grand Theatre in Kingston will feature one of St. Lawrence's more colourful alumni. Once again, Tim Walsh is on centre stage.

Tim is never far from the theatre.

"My first interest in acting came when I was six years old and attending Prince of Wales Public School in Brockville," says Tim. "Even when I was attending St. Lawrence, I was involved with the theatre performing at the civic centre in Brockville. There was no theatre at the college."

A graduate of the Behavioral Science program, Tim graduated from the Brockville campus in 1973.

Following his studies in Brockville, Tim moved to Kingston and began a 14 year career with the Department of the Solicitor General where he worked as a Recreation and Physical Education Specialist in Kingston area prisons. During this time, the budding actor also began studying at Queen's University on a part-time basis. Five years later, Tim earned his degree in History and Drama.

"Acting always came first," explains Tim. "A number of employers over the years have had a hard time understanding my obsession. I would take time away from work so I could perform."

As he reflects on his activities over the years, Tim measures the time in terms of what performances he has been involved with.

In 1985 Tim won the Dominion Drama Festival's "Best Supporting Actor" award for his performance in *Translations*.

"Around this time people were saying I should try to make a go of acting professionally. I found an agent and began to take roles in films and TV commercials, says Tim." "There was lots of work but never any real money in acting part-time."

After 14 years in Corrections, it was time for a change. A series of sales and management positions in the automotive industry took Tim across the province until last year when the idea of starting his own business began to take shape.

This past June marked the official opening of "Scene Dock" in downtown Kingston. The furniture and art store takes its name from the side stage in a theatre where the furniture is stored prior to being moved on stage.

Tim recently opened a second outlet of "Scene Dock" in a shared facility with another St. Lawrence grad, Marc Pilon, who owns Seabo Hot Tubs on Princess St. Tim's wife, Brenda, also helps out at the store when she is not working as a

dietitian at Kingston General Hospital. Says Tim, "I have a great deal of respect for the work that goes on at St. Lawrence. In fact, I'm sort of surrounded by St. Lawrence people. My son Justin, from my first marriage is a grad, my nephew is studying at St. Lawrence in Kingston, my business partner attended the college, and the list goes on."

Tim remembers his first day at the college in 1971 and recalls registering with Wayne Dailey who still works at the college. While at the college, Tim played several sports including hockey.

"Al Hoy who also works at the college was in my class and Doug Hone was also a student at the Brockville campus then," explains Tim. "I like to get back to the college whenever there is an event going on where you can see old friends and share a few beers."

With "Scene Dock" open and operating, Tim is back in his role as actor this fall with a major performance in *Guys and Dolls*. The classic production runs at the Grand Theatre November 12th to 27th. Tickets are available by contacting the Grand at 530-2050.

Tim's performance is certain to be enjoyable, as always.

And Tim, break a leg.

## Alumni Profile...

By Frank Lockington, (APR/83)

# Alumni network in action

Helping recent graduates find employment is not a new concept for St. Lawrence alumni but Lorne Garlough, (Computer Engineering, Process Control/Cornwall-88) knows just how important it can be.

Through the efforts of committed staff and an alumnus, Lorne was afforded the opportunity of an interview with Bailey Canada, and since 1988 he has been working as a Systems Specialist for the large process engineering firm based in Burlington, Ontario.

"I guess it got started because C.K. in the Technology Department in Cornwall kept in touch with a former St. Lawrence graduate at Bailey, Brad Loewen," says Lorne. From there, I sent my resumé and followed with a couple of interviews."

Lorne is not the only graduate to benefit from this positive relationship.

"Pete Harte and Luc Lemire are working in the Pulp and Paper department with me on the application engineering side. Brad Loewen is our department Manager. In our department, 10% of the staff are from St. Lawrence." Adds

Lorne, "Bill Sinfield, a grad from Cornwall is also here at Bailey in the Utilities division of the firm."

Lorne's work at the company has involved travel to pulp and paper mills across Canada and, most recently, Indonesia.

A native of Williamsburg, Lorne first attended college in Belleville at Loyalist where he earned a diploma in Mechanical Engineering in 1982. After working for the St. Lawrence Parks Commission for a few years, Lorne elected to return to college full-time in Cornwall in 1986.

Reflecting on his days at St. Lawrence, Lorne recalls there wasn't much time to do anything but complete the work and lab assignments for instructors in the Computer Engineering Program.

Lorne was very qualified to take on the position at Bailey but an alumni connection certainly did not hurt his chances of beginning a new career at Bailey.

# St. Lawrence College Anniversary During

T

W

E

N

T

The College kicked off 25th anniversary celebrations with a "Voyageur Expedition" along the St. Lawrence River from Kingston to Cornwall from June 27th-July 1st, 1992. The trip was organized by Frank Lockington and Robin Pepper of Marketing Services to increase college awareness among our communities and to help locate "lost" alumni in our 25th year. About 45 voyageurs participated in the five day paddle and were greeted warmly by dignitaries and local media along the way.

Provincially, July 12, 1992 was declared College Day at Canada's Wonderland and on October 3, 1992 staff and alumni attended College Day at the Skydome to watch the Blue Jays take on the Detroit Tigers.

To help mark our 25th anniversary, St. Lawrence selected two Hillebrande Estates wines for special bottling. The white was Hillebrande's Chardonnay

and the red was their Marechal Foch. Both displayed the 25th anniversary logo.

The three daily newspapers in our region, the Brockville Recorder and Times, the Cornwall Standard Freeholder and the Kingston Whig Standard each published a special 25th anniversary supplement during Fall 1992. They highlighted our history and news about innovations in college education.

On October 30, 1992 some 700 employees of St. Lawrence gathered in the Aultsville Theatre at the Cornwall Campus to hear President Dan Corbett's vision of our Strategic Plan and to focus on actions necessary to implement strategic initiatives to set future directions for the College. It was also a time to celebrate the 25th anniversary of the College. Each campus celebrated the 25th anniversary with a Homecoming Reunion....

# celebrates 25th ing 1992 - 1993

• Y • F • I • V • E

**Brockville** had their Homecoming last September. An official ribbon cutting ceremony with local politicians and members of the Board of Governors was held on September 24, 1992. President Corbett officially opened the 25th Faculty Art Show and visitors were invited to view the memorabilia exhibit in the gym. A Wine & Cheese party followed the next evening on September 25th for alumni and staff. Saturday afternoon, the 26th, alumni were invited to meet former classmates and teachers at a reception followed by a dance/coffee house that evening. On Sunday, September 27, Homecoming wound up with an Ecumenical Church Service, brunch and the planting of a silver maple tree donated by the Ministry of Natural Resources.

**Cornwall's Homecoming Reunion** took place May 7 - 9, 1993. A Friday evening Wine & Cheese Party was followed by an official opening on Saturday, May 8th, complete with a memorabilia display, a barbecue and special Homecoming Cake. Saturday night, over 400 people filled the gym for the last of the "old-fashioned bashes" to hear the Butlers play. Everyone got exactly what they came for from the very first song to the last waltz. The Butlers had everyone back in the 70s and dancing like they were 20 again. Homecoming festivities ended with a brunch on Sunday, May 9th.

A year after the Voyageur Expedition, **Kingston** held its Homecoming Weekend on June 25, 26 and 27, 1993. More than 300 alumni from around Kingston and across the country returned for the college's first reunion since its founding 25 years ago. The theme of the reunion was "Get Back To Where You Once Belonged". A Wine and Cheese Party in the Student Centre was held on the Friday evening. Memorabilia abounded from old photos to old music. A barbecue and slo-pitch baseball game were held Saturday afternoon, and some academic programs organized dinner get-togethers. A "GET BACK" Dance was held in the Student Pub Saturday night. Brunch was offered on Sunday followed by the sealing of a time capsule with donations from students and staff. Other events in Kingston during 1992-93 included a Staff Golf Tournament, BBQ and Dance on August 27, 1992 featuring our staff band "The Committed", Staff Recognition Night on October 1, 1992, an historical display in the Art Gallery in November 1992 and the entry of the "Viking Float" in the Kingston Santa Claus Parade on November 14, 1992. The float subsequently won an Award of Excellence - Best New Entry which was later presented to the College at a City Hall Council Meeting.

# SLC Hosts Ontario College Marketing Competition

by Jason Trussel, J.A.T. OCMC Co-chair

I am proud to announce that this year St. Lawrence College will be hosting the Ontario Colleges Marketing Competition (OCMC) on the Brockville Campus, November 18 & 19. This educational event is a marketing competition among business students from Ontario's community colleges and challenges the competitors on their skills and knowledge of marketing via case studies, presentations, interviews, mathematics, and a marketing version of "Reach for the Top", otherwise known as the Quiz Bowl.

This display of talent from Ontario colleges' business students is made available through various sponsors. So far this year, the OCMC is pleased to have Cadillac Fairview, Prentice Hall and the Financial Post, as returning sponsors. We are happy to welcome new sponsors, Brock Telecom and Mitel, with Mitel as the lead sponsor in this year's competition.

This two-day event will provide a true display of talent starting on the Thursday evening at the Brockville Arts Centre with the opening ceremonies immediately followed by the Marketing Quiz Bowl. On Friday, the excitement heightens as the students will be at the Brockville Campus during the day competing in their various events. Following the day's activities at St. Lawrence, winners will be announced at the awards ceremony to be held at Grenville Christian College.

Watch for further details on this upcoming event.

Any questions can be addressed by calling

Jason Trussell at

(613) 345-0660, extension 3261.

## Continue Your Education The Part-time Way At St. Lawrence

*Are you interested in improving your career opportunities?*

Perhaps you're preparing for a promotion, a lateral transfer or a career change. Join the many who are returning to St. Lawrence to gain new skills or brush up on current skills.

Through our new College-wide Continuing Education Department, we have a very wide selection of courses and certificate programs now available to you.

**For more information, call us today.**

**In Brockville: 613-345-0660,**  
ask for Lynn Walker

**In Cornwall: 613-933-6080,**  
ask for Pat O'Brien

**In Kingston: 613-544-5400,**  
ask for Linda Burgess

## Vet Tech. Alumni Fund

We are still asking alumni from the V.T. Program for donations to sponsor the V.T. Alumni Award, to be given to a V.T. student. To date we have just over \$1,000. We strive to increase this amount such that the interest can be awarded annually. If you wish to contribute, please send a cheque, payable to St. Lawrence College to Harry Lawson. We wish to thank those of you who have made this goal a reality.

Keep in touch. If you hear of any job openings or wish to be on our mailing list please call Barb Donaldson. We love to hear from you. Everyone says hi.

**Look Where We Are!** Kingston Campus Bookstore has a whole new look and better yet, a whole new location! It's right inside the front entrance to the College and incorporates our Boutique, Semesters.

In our new location, we will continue to provide the latest in College sports-wear, sweats, T-shirts, jackets, bookbags, hats and course supplies.

Did you know that many community industries and agencies use our bookstore? We process special orders for the Ministry of Correctional Services and Kingston Psychiatric Hospital, to name a few.

We also make sure that our correspondence students from as far away as the Northwest territories are supplied with all the tools they require for learning.

We're excited about our new location. Come in and check us out!

## New Community Learning Centre Open In Cornwall

**The Cornwall Campus of the College Community Learning Centre is up and running. Its goal? To serve the needs of the part-time learner by:**

- \*Offering over 100 courses or modules in the areas of Computing, Business, Trades and Technology, many of which contribute to Post-Secondary diplomas, Certificates or Statements of Achievement.

- \*Providing a Learning Centre staffed with qualified professors to counsel, tutor and encourage students as they progress through their courses.

- \*Recognizing the unique needs of adult learners by providing a supportive learning atmosphere and one-on-one tutorial assistance on an ongoing basis.

Community Learning Centres have enjoyed tremendous success in both Kingston and Brockville and now the Cornwall Centre completes the tri-campus strategy. Our Learning Centres are but one of the ways that St. Lawrence College strives to meet the needs of our clients through quality and innovation.

The Cornwall Community Learning Centre is located on the third floor of Aultsville Hall on the campus of St. Lawrence College, with access through the Library. The staff there will be more than happy to answer any questions you may have.

**HOURS OF OPERATION:**  
9 am - 8 pm,  
Tuesday, Wednesday  
and Thursday

Call 933-6080, ext. 2246  
for more details

Left to Right: Back: Wayne Barrer, Tom Pasco, Dan Leroux Front: Carol Bowie, Cathy Cornett

- \*Allowing course registrations on a continuous intake basis so that students may register any week of the year. The Centre will be open on a year-round basis and provides evening hours which allow access to many learners otherwise limited by home and work commitments.

# Business & Industry Services Keeping Pace With Market Needs

By Barry Keefe

*What do the folks at  
Levi Strauss in Cornwall,  
Brock Telecom in Brockville  
and the Downtown Kingston  
Business Association  
have in common?*

*Well, okay,  
it is a trick question.*

*The answer is that they  
all work with the College's  
tri-campus  
Business & Industry  
Services Department  
led by Director Dan Dexter.*

This department of the College works with large and small organizations to match the training needs of the client with the resources available through St. Lawrence. Brockville's Denyce Diakun has been developing programs for businesses that include courses in such areas as PLC's (programmable logic controllers), electronics and academic upgrading. Working with Brock Telecom, she has helped put together a course for industrial maintenance mechanics. In the hospitality sector, she has worked on a session to upgrade skills in food and beverage service for the hotel and restaurant sector.

In Kingston, consultant Barry Keefe has been working with a wide range of clients for several years. A company might require a course on Statistical Process Control. Barry will find a way to deliver it. Or there may be a request to help develop a customer service program or to cross-train a number of skilled trades persons. Drawing on the strength of existing College faculty and individuals from the wider community, Business & Industry Services is able to provide a wide range of training and development services in a practical and cost-effective manner.

As we move through the '90s, the face of educational services keeps changing. St. Lawrence has had a major influence in the preparation of a skilled workforce for over 25 years. We continue to be in the forefront as we strive to reach out to our communities to provide useful, up to date skill enhancing services. Dan Dexter and his team are eager to help business and industry throughout the St. Lawrence valley.

Give Dan a call at 544-5400, X1220

# A Design For Success

By Alice Welsh

Education and training services are playing a significant role in meeting the challenges encountered by Canadian business and industry. The success of all sectors is increasingly dependent on the quality and skills of their workers. Greater access to high quality education and training programs combined with innovation and new technologies will be the key to moving both the public and private sectors toward the competitive edge.

In 1987, Stats Canada found that one-third of Canadian companies provide formal training for their employees, amounting to an estimated expenditure of \$1.4 billion annually. In a highly competitive market, educators and trainers in the commercial sector are expected to capture a significant share of this domestic market.

Difficult economic times and a competitive marketplace create new challenges for both the public and private sectors of our communities. Declining resources and a demand for increased productivity cause enterprises to seek a high level of efficiency and competency across the breadth of their organizations.

Our College is meeting the challenge of providing the expertise in developing and providing progressive high quality training that is specifically designed for the adult learner. This expertise provides a solid base for the emergence of partnerships.

Partnership is the evolution of a trusting relationship where partners complement each other's expertise while sharing a common vision, resulting in added value for both partners. Although the College acts as a separate entity, it

acts as an internal resource for the partner. Our College will jointly develop with the partner, a training strategy so initiatives are tailored to meet the needs of the client. We will commit or engage the appropriate resources to ensure the client's agreed-to needs are met while attending to the strategic issues and judicious use of resources within the College, on a flexible, on-going basis.

Improved cooperation among industry, labour, educational institutions and communities is essential in our efforts to keep pace with the increased technological and skill requirements of today's marketplace.

To this end, the College is actively pursuing partnerships with selected businesses, industries and public sector institutions who can complement our efforts in order to prepare our graduates to meet the current and future needs of the workplace.

An example of the quality of partners that we envision has been realized with the Mitel Consortium that recently formed a partnership with the College. The primary vision of this partnership is "from the inside looking out" where we will expand our client services, our academic liaisons and our technical capabilities.

Another exciting new opportunity for partnerships is being developed with a community-based vision to provide a

seamless educational opportunity. This one is referred to as the Black and Decker Consortium, as it was initiated by the manager of Black and Decker in Brockville. It in essence has the capabilities of providing current high-quality certified training to the existing broad-based manufacturing workforce and to attract the next generation of workers. The partnership is modeled after a very successful strategy used by Black and Decker in the United States.

Other partnerships have been secured through the efforts of the college senior administration and include Canadian Microelectronics Corporation at Queen's University who are the research arm of the Science Council of Canada in microchip engineering.

Skills Dynamics Inc., the training arm of IBM has formed a partnership with our college to deliver its established state-of-the-art training in a format that complements our current offerings.

Other existing partnerships exist with Kemptville Agricultural College, Sir Arthur Lewis College in St. Lucia and Szecheyni Istvan College of Technology in Hungary.

Potential partnerships are being negotiated with Niagara College and New York State University to deliver university-level courses by satellite in order to participate in the envisioned "educational" channel and the Canadian Manufacturers Association to deliver their certificate program through external funding.

We can be a leader by joining the leaders and thus becoming the College of first choice.

How would you like to let your former classmates know what you have been up to since college days!

ECHOES, the "who's where?" section of Voyageur provides the opportunity for you to inform and stay informed! Update your alumni record at the back of Voyageur and indicate that you wish to share this information with other alumni. Then watch for the next issues of Voyageur!

## BROCKVILLE

### Garrioch, Pat

Diploma Nursing - 1983

Pat and her husband, Nick, live in Winnipeg. Pat is a staff nurse in the I.C.S. unit at St. Boniface Hospital in Winnipeg.

### Hoy, Peggy-Anne

Diploma Nursing - 1983

Peggy and her husband, Bruce Johnston, reside in Brockville with their two sons, Matthew (2 years) and Andrew (6 months). Peggy is employed as a Registered Nurse at the Brockville Psychiatric Hospital and her husband is a Chemical Engineer at Phillips Cables Ltd. ## St. Lawrence Is Now A Smoke-Free Environment

As of September 1, areas for smoking are no longer provided at any of the three locations and Physical Resources staff posted signs throughout the building to inform/remind students, staff and visitors.

## Where you work is important to us!

**Your address at work is a very important addition  
to your alumni record here at the College.**

Employer information helps us:

To identify major employers who directly benefit from the hiring  
of skilled graduates from St. Lawrence College.

To locate other "lost alumni" through special promotions with employers.

To identify alumni employed in specialized occupations and industries  
who could provide advice and direction to the college through our  
network of program advisory committees.

To provide information directly to employers regarding  
continuing education opportunities at St. Lawrence

To identify major employers of our graduates for future matching  
gift fundraising initiatives.

**Please take five minutes now to add employment information to  
your alumni records by completing the "Update Your Alumni Record"  
mailback/FAXback form on the next page.**

# UPDATE YOUR ALUMNI RECORD

Response to our drive to find alumni at work has resulted in the addition of thousands of updates to our alumni records. To date we have employment addresses for over 3,500 alumni.

If you are currently employed or have had an employment change in the past year, we would like to update your alumni record here at the college.

When we receive your update, we'll enter your name in a draw for IBM's OS/2 software program which you can use at work or home, courtesy of IBM Canada.

Please take a minute to update your record using the form here and send it to the Alumni Development Office today.

The Alumni phase of the "Sharing Our Future" campaign has raised nearly \$10,000 to date. Overall the campaign has raised more than one third of the \$1.5 million goal.

We still need to raise close to a million dollars to achieve our objective but already we are seeing the benefits of donor contributions. Through the campaign's student assistance fund, St. Lawrence students in need of short

term financial support are able to receive loans which help ensure they stay in college. The Alumni phase of our campaign was headed by Lianne Mitchell (Marketing 93/Kingston) and involved a number of students. With over one third of the goal achieved, the campaign has moved outside the College and will involve seeking support from individuals and businesses in the St. Lawrence region and across the province. If

you have not already contributed to the "Sharing Our Future" Campaign, you can still do so by forwarding your gift to:

St. Lawrence College  
"Sharing Our Future" Campaign Office  
King & Portsmouth  
Kingston, Ont. K7L 5A6

or you can contact the Campaign office through the campus nearest you at ext. 1617 for more information.

## "Sharing Our Future"

*On behalf of the "Sharing Our Future" campaign team, I would like to extend our sincere appreciation to the many alumni who have provided early gifts to the campaign. With your support, we are able to help many St. Lawrence students today, and in the future. Thank you*

Sincerely,  
Roy Olsen, Chair  
"Sharing Our Future" Campaign

### Alumni gifts received as of September 1, 1993
