The alumni of St. Lawrence College. Both Frank and I are truly impressed with the calibre of professionalism of the people we've interviewed for Voyageur. As staff members of the college involved in many administrative duties sometimes the real purpose of our work becomes shaded by the bureaucracy of our college. But when we spend a few minutes talking with alumni (or students) it becomes crystal clear.

Our success is measured to a large extent by your success. And we are involved in many activities to improve the quality of education at St. Lawrence and the value of a college diploma which, in turn, benefits you. Just last month the first recipients of the Premier's Award were announced. (See story inside). This award has been established to recognize outstanding graduates of Ontario's Colleges. Fernand Hamelin, a graduate of our Technology Department in Cornwall, is one of the award recipients. We have gained considerable public attention through our 25th Anniversary activities such as the "Voyageur Expedition" (Inside). Customer surveys and other related marketing research are also contributing to the building of our college's image in our communities. Across the region we are investigating core programming and standards so that a

Editorial

By Frank Lockington & Robin Pepper

graduate from a Business Administration program at St. Lawrence will have similar skills to a graduate of a Business Administration program at Loyalist. We are also establishing links with degree granting institutions to provide fair credit for college graduates.

The publishing of Voyageur is one very important way in which we are working to improve the prestige and value of being a St. Lawrence graduate. Voyageur is distributed widely to major business and industry leaders, to social organizations, to government agencies and to the news media.

We can see clearly now the opportunities present in a strong and vibrant alumni association. These opportunities can be shared by you and your college. More and more alumni are coming back to St. Lawrence and getting involved in a wide variety of activities. Both Frank and I encourage more of you to come back - for Homecomings, for participation on program advisory committees, guest lectures in the classroom, visits to talk to high school students about St. Lawrence and more. The first step is a call to the Alumni Development Office. Dial the campus nearest you and ask for extension 1617. We hope you enjoy this issue of Voyageur.

Alumni Profile...

Dwight Baird

The "Cabbie" is confused. "Did you say St. Urbain or St. Hebert?" he questions.

"St. Urbain," I say nervously as the meter ticks away another dollar. And I thought there were a lot of one way streets in Kingston. We seem to be going around in circles following the thick, white arrows of one way street signs. We both strain our necks out the right window of the cab until the magic number of 4120 St. Urbain appears. A knock on the door brings a friendly smile and a warm greeting from Dwight Baird.

Baseball and Watercolours A Winning Combination!

Dwight is a 1977 graduate of the Visual & Creative Arts program in Cornwall. He is a native of Huntingdon and is now an artist living in Montreal. He lives in a comfortable,

modest, tidy, street level apartment with a small back court yard filled with vegetables. He shares his apartment with his cat "Raton". It's what I expected.

But the watercolours that hang on his wall are not what you would expect of the typical artist. Baseball fills the room! The Montreal Expos in particular. There's another unusual aspect to his "Baseball Watercolours". The baseball players portrayed in his work have no heads! His most famous headless artwork is the painting of number 44 of the Los Angeles Dodgers, "Darryl Strawberry". His latest work is a line-up of all the major league teams, again, with no heads.

"I'm not painting the people I'm selling an artistic approach," explains Baird. His approach is carving out a successful niche in the artistic field. "Sport" art is very popular in the United States and is now becoming better known in Canada. He has gained a fair bit of publicity and notoriety in the baseball arena. His work was featured in the 1992 All Star program. He now has completed 45 pieces for his baseball collection. He has shown his baseball collection several times in Montreal and plans to take his work to Spring training in West Palm Beach, Florida this year. And as Dwight says, "Anybody who has anything to do with baseball is in West Palm Beach in the Spring."

Baseball is not the only theme Dwight Baird has developed over the 15 years he

by Robin Pepper
Advertising & Public Relations 1982

has been painting. The landscape of the land and the faces of the people of Newfoundland have been captured in vivid detail. As well, the sights and sounds of a carnival come to life in several watercolours.

"The art is only one part of being a successful artist," says Baird. I could paint all day, every day and if I didn't sell anything I wouldn't be successful."

The business side of being an artist is something Dwight has learned well. Not only does he sell the original paintings but he also sells postcards and posters of much of his work.

"The cards and the posters provide a regular flow of money to sustain my business," says Baird. "The original paintings provide some additional money for expanding my work."

Dwight says the business side took about 50 percent of his time. Now he has an agent who takes care of most of the business needs. Because of the detailed nature of his work it takes about a year and a half to develop enough material for an exhibit. The baseball collection took two and a half years to develop. Dwight's exhibits are an event. He wants people to remember his shows and incorporates lighting and music to provide a "whole concept".

Dwight says originality is the key to success in the art world. "I've always painted things that most people don't," says Baird.

Dwight Baird's originality stems from his training at St. Lawrence College. He says it was the encouragement of his teachers that made a difference for him. In particular, he remembers Robin Wall from St. Lawrence and his high school art teacher. He found out about the St. Lawrence art program when his high school art class visited the college.

Dwight's advice to aspiring artists is "stick with it." "It's not easy establishing yourself in the art community and making money," explains Baird. "Life is full of setting priorities. My priorities are my painting and enjoying life. These are still lean years for me. But I don't have to make \$50,000. a year to enjoy what I do. I consider myself very fortunate. I travel a lot. I paint exactly what I want."

Dwight Baird's post-cards and posters are available in many bookstores. If you wish to purchase any of his work please contact him in his Montreal studio.

Dwight Baird
4120 St. Urbain Street
Montreal, Quebec
H2W 1V3
(514) 281-8965.

It's difficult to find words that describe the beauty of Dwight Baird's work. Never before have I seen water-colours that describe in such fine detail the subject matter. His work is very focused. In particular the baseball collection (without heads) takes your eye to every shadow of light, every crinkle of the jerseys, every shade of the colour,

and every crisp letter. Dwight's business sense is astounding! He knows how to sell - his work - himself. The combination of his artistic talent and his sound business skills is something original in itself.

Alumni Profile...

Raymond E. Connell

Profile of an achiever

By Frank Lockington Advertising and Public Relations, 1983)

What does St. Lawrence College have in common with Noranda Inc., one of Canada's largest companies? Both organizations represented an opportunity for Raymond Connell to achieve his personal career aspirations.

In the earliest days of our college, a young LaSalle Secondary School graduate set aside four years of High School Automotive studies to begin a new career, in a new field of study, at a new educational institution, namely, St. Lawrence College. The year was 1968 and the world of information processing through computers was about to explode.

After twenty-two years and a lifetime worth of experiences, Ray today represents Noranda Inc. as their Vice-President of Information Services

Completing his studies in the Business Department in 1970, Ray was among the first graduates of Kingston Campus

"I recall that I started looking for work about nine months prior to graduating," explains Ray. "My first position was as a computer operator with Diversey Chemicals."

Ray was married that same spring and together with his wife Laurel, moved to Toronto where he began his career in business.

"I spent about two and a half years at Diversey before moving on to another

Over the next 18 years, Ray would move up from Computer Analyst to Project Manager and eventually achieve the position of General Manager and Chief Operating Officer of Indal's Computer Services Division.

"In 1989 I was becoming restless and was looking for a change when the opportunity of joining Noranda came along. At the time, Noranda was attempting to determine the viability of their Corporate Information Services area and I joined the company as their Director of Consulting," explains Ray. "Within four months I was appointed Vice-President of Information Services for the company."

Noranda Inc. is the parent organization of a diversified natural resources group of companies in the mining and metals, forest products and oil and gas industries. The Noranda group includes companies such as Hemlo Gold Mines, Falconbridge, Norcen, Superior Propane, North Canadian Oils, Mac Millan Bloedel and American Racing to name a few.

"My department is really a service area and a resource for companies in the Noranda Group," explains Ray. "We have about forty-five people working in this area. Many have come from various industries with specific expertise in functional areas such as mining and geology, finance, distribution, manufacturing and human resources."

"Understanding 'Business' is the strength of this group, not simply technology. My role is to ensure we are re-engineering business processes first and foremost and utilizing strategic information technology across the Noranda

Reporting to the President and Chairman, Ray is one of a small group of senior executives at Noranda Inc. On any given day, Ray could find himself anywhere in Canada, Mexico, Europe or the U.S.A. The company has over 260 sites around the world.

Outside his corporate office, Ray has made time to contribute to a variety of other organizations. Ray is the former Chair of Seneca College's Information Technology Advisory Committee, and is currently Vice Chairman of the Information Technology Council for the Conference Board of Canada. He is also a member of the Information Technology Advisory Board for the YMCA of Greater Toronto.

Despite the hectic schedule that comes with the position, Ray makes time with his family.

"Laurel and I have two boys, Scott 20, and Brad 16," says Ray. "Scott is now at Georgian College in Barrie studying Business Advertising and Public Relations."

Family is very important to Ray. They try to spend time together on weekends by getting outdoors. They enjoy travelling as well.

From the 40th floor of BCE Place Ray shares with us a few of his secrets to success: Read as much as you can about the fields you have interests in. Gain knowledge about business and industry. Learn how to market yourself and your ideas.

Ray Connell is an achiever. His enthusiasm, commitment and desire to be successful has carried him to the

Brockville...

A homecoming to remember

By most accounts, Brockville campus' first homecoming was a great success. A full weekend of events took place at the campus September 25th - 27th to help mark the College's 25th anniversary.

"About 155 alumni and staff turned out for various activities over the course of the weekend," explains Doug Roughton, co-chair of the organizing committee and professor in the Hotel Restaurant Management program at the campus. "We had hoped for a few more participants."

Friday evening a wine and cheese was held in the Student Pub. Various department displays were step up for viewing during the day on Saturday and the Women's soccer team played host to their counterparts from Algonquin College.

Saturday evening,

play, produced by Jack Tennant of the college's media services.

ices department was certainly a favourite among participants.

the pub was crowded as alumni and staff gathered for a unique performance by an Ottawa impressionist who gave us John Wayne, the Phantom and yes, Elvis

Bill Tennant, Professor at the campus lead a very special ecumenical church service Sunday morning. Brunch followed with a presentation by the Ministry of Natural Resources of a silver maple tree to help mark the college's 25th anniversary.

Throughout the weekend, a multi-media memorabilia display illustrating the history of the campus, alumni and staff was open in the gymnasium. The dis-

Tyler Forkes, Athletics Director at the campus, and co-chair of the event with Doug said, "People seemed to enjoy the variety of events and everything went very smoothly. Certainly the alumni I talked with were having a great time. It was really nice to see some of the graduates from the 70's back to celebrate. For our first homecoming I think it was a great success."

Homecoming weekends are also planned for the Cornwall alumni, May 7th - 9th, 1993 and for Kingston alumni June 25th - 27th, 1993.

For further information on either of these special homecoming events please contact the Alumni Development Office.

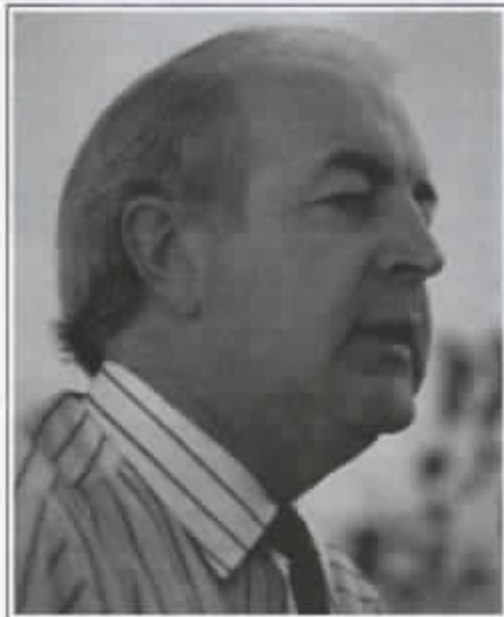

pants but those who were able to attend had an excellent time."

Events included a grand opening Thursday evening with presentations by local dignitaries, an alumni and staff art exhibit and a reception in Motlucks. Susan Jansman, Nursing/76 cut the ribbon to officially kick off the weekend.

Corbett comes to St. Lawrence from the corporate sector. He has extensive experience with Albright and Wilson Americas where he held several positions: Vice-President of Corporate Resources, V.P. Employee Relations, International Corporate Analyst and Public Relations Manager. However, Dan Corbett is no stranger to the halls of academia. For four years he was part of the Alumni Affairs and University Relations department of Memorial University in St. John's, Newfoundland.

The next 25 years...

Gazing into a crystal ball is dangerous in these times of rapid change, but planning for the future is something that seems to come naturally to Dan Corbett, the newly appointed President of St. Lawrence College.

By Robin Pepper (APR/82)

It is Corbett's experience with corporate strategic planning that best prepares him for his new role in focusing the strengths of St. Lawrence College. Yet his vision goes beyond the walls of the College.

"The forces and issues that will drive the direction of our College over the next few years are: one, that education is very much in the forefront of the public agenda, and it's being questioned as never before. Education is in the forefront of the corporate agenda as well," said Corbett. "And it all gets back to the whole issue of competitiveness and of building the country's prosperity. Our prosperity depends on our ability to educate and train our human resources for a world-wide marketplace. Over the last year or two the entire education system has been 'bashed'. The private sector, corporate sector and some levels of government have stated that education is not meeting the needs. What I see happening at St. Lawrence is that we are going to become much more needs focused. Not that we haven't been in the past. But I think the issue is now becoming very clear in the sense of how to educate and how to develop skills, so that we are meeting the national mandate of competitiveness and prosperity on a world-class basis."

"The second issue is wrapped around the words, 'economic restructuring'. We are not in a recession; we are in a major economic restructuring. This has caused a lot of social and economic upheaval. What you're seeing is a lot of people realizing that the career they had is no longer there... the company has disappeared. Or, the company is still there but the person's job or function has changed dramatically and his or her skills are no longer relevant to what it is he or she needs to do. In the last couple of years we have seen a lot of people coming into the college system. And, they are coming back to build a better future for themselves. In some cases they are coming for skills updating. In some cases they are coming to acquire new skills. Today, I sat in the cafeteria and talked with a lady who is 49 years old and she is learning all about computers because the job she had disappeared. Her skill is outdated but her ability to learn is not."

"Number three has to do with the whole integration of the College within the community. I think the colleges have a very clear and different mandate from the universities. We are much more career-based and more specific, more focused on what the needs of the community are. I think one of the big myths which is being dispelled, as our colleges come of age, is that you are not getting a second rate education by coming to college. You're getting a first class education by coming to college. You are acquiring skills by coming to college, skills which are desperately needed within the community structure. I think we need to get out

there and say, the colleges are here and can respond to meet the needs of the private or public sector."

Dan Corbett firmly believes that a college, "properly focused and well represented" can deliver the kind of educa-

"There's been a lot of talk about integration and partnerships but we need to just go out and do it!" said Corbett. And Dan Corbett will be actively forging partnerships with community groups, government leaders, and corporate representatives. He does say, however,

"That's not where the funding mechanism is," said Corbett. "Yet through the basic funding mechanism, over the years, we have developed infrastructure and expertise. So working with private industry and using private fund-

or maybe just five...

tion and training that will help build the prosperity of the region and the nation.

He suggests, however, that most of the people who are making the decisions are not from the college system. Therefore, often, the colleges are not considered in the economic planning of the community. What Corbett repeats, is the need to tell the communities that the colleges are one of the key instruments to better competitiveness and prosperity.

The new president recognizes, though, that there's always room for improvement. At St. Lawrence, Corbett has introduced this year, a process to better focus the college's resources.

In our strategic planning we will be asking ourselves some very fundamental questions. How customer focused are we? Defining our customer base is a critical issue. Are the processes and structures we have at St. Lawrence properly focused? How tied in and integrated are we with the economic development plans within our community? How closely are we working with the economic development groups? Are we anticipative enough? These are questions and statements Corbett is asking and saying to all units within the college. These questions return to Dan Corbett's third issue of integration with the community and the establishment of "real" partnerships.

that we first need to ensure we know what the needs are of our partners. That's why, through the marketing research unit of St. Lawrence, an aggressive surveying process has begun to clarify community needs.

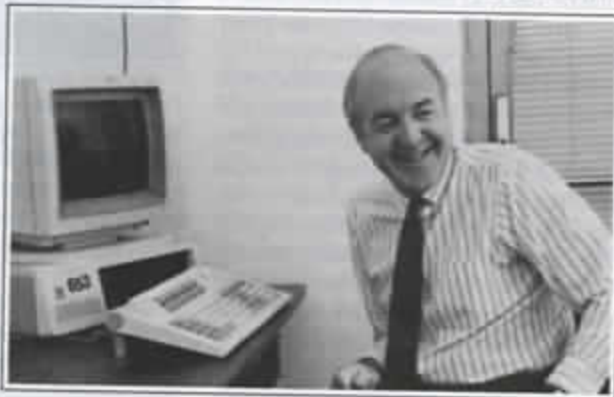

Dan Corbett defines "real partnership" as being more than the College being a supplier of education, or skilled graduates, and the employer being a receiver of skilled employees.

"Partnership is value," explains Corbett. "There's value on both sides of the equation. We as a College need to come to business and industry with a package or program of training that anticipates their future needs rather than one that reacts to current employment situations."

The issue of funding is crucial yet complex for the College. Corbett suggests that the college can deliver quality programs in the traditional format to the traditional secondary school graduate within the confines of the current provincial funding mechanism. However, it becomes more challenging when trying to customize training for business and industry.

ing together, we'll accomplish a better means of customizing our training."

"What we need to do as a college is to start to focus on our strengths, our uniqueness and start to build on them," concludes Corbett. Focus and quality... two words that Dan Corbett uses a lot.

He is also quoted as saying that he will be "walking the talk". He is committed to the notion of anticipating the educational needs of the College's customers. He is a good listener.

Somebody famous said, "The true indication of a leader is someone with a point of view." Dan Corbett, the newly appointed President of St. Lawrence College, has many views, not only on the future of St. Lawrence but many insightful thoughts about the whole educational system.

by Robin Pepper,
Graduate of Advertising
and Public Relations 1982.

This was more

My muscles were aching with every stroke of the paddle. Gananoque was about 30 minutes behind us. The pain was real but obscured in my mind as I focused on the unison dip and pull of 8 paddles pushing the canoe through the swells. The sights, along with the sounds of the water swirling to the top of the gunwales and the call of the stern-person, "one, two, three - SHIFT" transposed me to a time long-ago of hardy voyageurs exploring the St. Lawrence River in huge freight canoes filled with furs and foodstuffs.

I came back to reality quickly with a splash of cold St. Lawrence water in my face. The time was the week prior to Canada Day 1992 and the dream is still vivid in my mind. About 20 St. Lawrence College students, staff and alumni climbed into 26 foot Voyageur canoes and launched from Confederation Basin in Kingston on a five-day expedition to Cornwall. Dignitaries, friends, family members, and well-wishers lined the stony shore to cheer and wave as the canoes disappeared around the Fort Henry point.

Over the five days more than 40 would have a turn paddling between the islands as we wove our way through 110 miles of sometimes calm... sometimes turbulent water.

Frank Lockington was the chief organizer of the expedition. And what a lot of organization it took to make sure the event was a success. Frank and I are both Alumni of St. Lawrence, (and proud of it!) and work in the Marketing Services department of the college. We had spent the better part of four months getting sponsors, supplies, tenting sites, etc. and setting up media coverage.

Steve Winters, a professor in the Math and Science Department was also a great help. Steve's experience with the big canoes and working with large crews helped to reassure us that the expedition was possible.

The news media were exceptional, with their support, as well as were businesses and individuals from the Brockville, Cornwall and Kingston region.

Our first stop was a St. Lawrence Parks Commission site near Ivy Lea. The first leg of the journey was the longest. We covered about 25 miles with a couple of rest stops and lunch in a picturesque bay. During the day the sun was hot, the air was cool on the water and we made good time in spite of the brief interruption of the storm. That night the "Voyageurs" dined on sirloin steak - not the typical fare of voyageurs of the past. It was an early night for most as the day's exercise had taken its toll on the adventuresome bunch.

The second day we headed for Brockville. The rest stops were more frequent and we enjoyed the scenery as we pushed through the heart of the 1000 islands. Many boaters and people on the shore waved a welcome and shouted encouragements. Each canoe crew, in turn, provided a loud and boisterous salute with paddles raised in the air. The camaraderie was beginning to build. We were having fun and experiencing an adventure of a lifetime! To our knowledge nobody else had tried this. We were talking to reporters (on the cell-phones) from radio stations and newspapers as we progressed down the river. My fellow "Voyageurs" were chastising me, (in fun), for spending too much time on the phone and not enough time paddling. Our expedition was unique in more ways than having cellular phones in canoes. Not often had staff, students and alumni of the three campuses of St. Lawrence College gathered together. Not often had the businesses and organizations of the communities co-

han a canoe trip!

sponsored an event of this type. Not often had a decree from the mayor of Kingston been sent by canoe to the mayors of Brockville and Cornwall. And, not often had voyageurs barbecued Italian sausage and chicken breasts in the Brockville St. Lawrence Park.

The next morning we paddled to a special ceremony on the river-front of Brockville. Mayor John Doran welcomed us to Brockville and to the city's Riverfest celebrations. With a turn of the canoes, a dip of the paddles and a push of the wind we were off to Prescott. (Fortunately the wind was at our back throughout the voyage.)

The third day we travelled further than we had planned. We made it to Cardinal. Rather than loading the 500 pound canoes on the trailer and returning to the Prescott camping site with the canoes we convinced a local marina owner to take care of them over night. We all scrambled into the college bus and returned to Grenville Park.

Rain greeted us the morning of the fourth day as we departed from Cardinal. The mood of the voyageurs had changed. The rain, along with the warning we were given that we would be paddling through some swift water from now on, meant a feeling of apprehension for some and a feeling of fear for others. Those of us who were less experienced paddlers were given the option of staying with the road crew.

But most wanted to take part in this more adventurous part of our journey. The mood shifted back to one of joy, freedom and peace, as the sun broke through the grey morning sky. The stroke was easier now with a strong breeze blowing us into McLaren Park just west of Cornwall. That night we were treated to a feast of barbecued shish ka bob, chicken, fresh strawberries, liqueurs, wine and beer. We sang songs around the campfire celebrating that we had completed the majority of our trip. There was a short paddle in the morning to a point where we pulled the canoes from the water and portaged to a site just a few metres west of our final landing point - the shoreline beside the Civic Centre in Cornwall.

We put the canoes back into the water with 10 Voyageurs in each boat. Everyone wanted to be part of the landing in Cornwall. Each boat surged through the water with a force not felt before even for the experienced canoeists among us. Each of us stroked with all our might. We turned to corner of the point that was blocking our view of the final landing point. To our surprise there was a huge crowd waiting for us. Then the fireworks started to salute our arrival. The scene was unforgettable! Motor boats escorted us in, tooting their horns. As the smoke from the fireworks drifted to the water it enveloped us and

for a few seconds we lost sight of our landing. "Frank we better turn back they're shooting at us," I joked. Just for a second my mind drifted back, once again, to how it might have been for those Voyageurs of long ago.

It was Canada Day and the people in Cornwall know how to celebrate our nation's birthday. There was a huge crowd on the lawn in front of a band-shell right on the shoreline. Canadian flags were everywhere - even in the sky. Rockets that launched with a thunderous bang took Canada flags high in the sky to float gently down with parachutes. There was a carnival atmosphere with rides, popcorn, hot-dogs and lots of people of all ages enjoying the sights and sounds of this birthday party.

The Voyageur Expedition was over. We landed safely. We were treated to another feast and a warm welcome from the citizens of Cornwall. Truly the St. Lawrence College Voyageur Expedition was an example of just what can be accomplished when people from different communities with different attitudes, and different backgrounds have a common goal to achieve. It was a testament to the fact that Canadians can put their differences behind them to work for a common good.

We better turn back... they're shooting at us!

Canada's only manufacturer of tooth brushes and dental floss, Odonto Corporation Limited is a well respected member of Morrisburg's Industrial Community supporting numerous community functions, and employing ninety-five. Many of these individuals have studied at St. Lawrence.

The Odonto story began in 1917 when G.C. Briggs first manufactured toothbrushes in Morrisburg. As business grew George Challies became a partner, then in 1940 George Beavers purchased the business, making both toothbrushes and

dental burrs. In 1965 Pat Beavers took over ownership and management of the toothbrush section, and the name Odonto (from the Greek word Odontology, science of the mouth) was born. 1971 saw another change for Odonto as Doug Baillie purchased the firm, then in 1981 Odonto opened the first Dental Floss plant in Canada. In the late 1970's Odonto had begun producing Reach toothbrushes for the multinational Johnson and Johnson.

By the 1980's that part of Odonto's business had grown so rapidly that in the fall of 1982 Johnson and Johnson purchased 100% of the shares of Odonto.

Odonto Corporation Limited Star Employer

By Bonita Eley,
Human Resources Department,
Odonto Corporation

Nick Lee (Personnel Management, Cornwall '83) is the General Manager of Odonto Corporation. Nick's belief in the value of continuing education has lead him to be a part-time student of St. Lawrence College, as well as a teacher of courses in Leadership and Effective Speaking at the Brockville campus. Although a native of Dorset, England, he has been a resident of Eastern Ontario for nearly twenty years and has continually shown his commitment to the area, through his support of non-profit organizations, such as Big Brothers. Nick is currently a Governor of Winchester Hospital, and its Treasurer, as well as being a Director of both the Chamber of Commerce and Upper Canada Play House. This year he was the recipient of the Lescarbot Benefactor's Award, which acknowledges an outstanding contribution made to local cultural expression. Married, with two teenage sons, Nick's other interests include boating and golf.

Cliff O'Shaughnessy (Computers, Brockville '86) - Cliff is the Production Planner at Odonto, a job that requires a mind for organization and detail, and in these times, a solid command of computers. Cliff relaxes with wood-working, and his summer enthusiasm... gardening.

Gordon Carvell (Mechanical Engineering, Cornwall '86) - Gordon is Manager of Engineering and Technical Services at Odonto. Married and living in the Cornwall area, Gord and wife Peggy share a lively interest in real estate.

Bonita Eley (Business Management, Cornwall '92) - The newcomer to Odonto, Bonita joined the team as Payroll Administrator in March of 1992 and calls her time with the company, "an exciting experience" where she is able to put the various concepts of modern human resource planning into practical use. As involved as she is with her job, Bonita still finds time for square dancing, dog walking, and writing diction as well as occasionally doing research for professional writer, Ruskin Bond, of Dehra Dun, India.

Ronald Hunt (Management/Manufacturing, Brockville '80) - As Manager of Manufacturing, Ron has an involvement with St. Lawrence College (Brockville) that goes beyond his student days. He was instrumental in setting up the Plastic Extrusion Technician program before joining Odonto in 1987. Ron enjoys golfing and playing the guitar in his leisure time but admits his real enthusiasm is for boating. Summer usually finds him cruising on the St. Lawrence during the Lay-Z-Daze.

Two students of the Plastic Extrusion Technician course credit their time at St. Lawrence with helping them to obtain positions with Odonto in the Plastic Moulding division.

Rick Savage has "no doubt" that the courses played a big part in getting this job. Described by a fellow employee as a "talented artist" for his drawing skills, Rick is also a member of industrial league hockey as well as playing baseball and motor.

Brian Dunleavy also believes that the Technician course was a factor in obtaining a position with Odonto. Brian has taken computer courses at St. Lawrence and looks forward to returning to night courses. He is also a sportsman involved in slow pitch, baseball, golf, and bowling. Brian is an avid movie goer who has also taken part in several amateur musical productions and been a part of the Operatic Society of Brockville.

Daniel Dawson (Accounting/Finance - Brockville) had to choose as a teenager between his two great interests, the worlds of science and finance. A career day at high school convinced him of Quality Assurance at Odonto. Dan is an ardent reader of financial journals in his spare time and feels that being a part-time student at St. Lawrence College has allowed him to better pursue his interest in finance.

In 1990 all Odonto operations, which until that time had been housed in a number of separate buildings, were moved into a spacious new facility. This move allowed Odonto to substantially improve working conditions for its employees as well as providing room for new equipment and technology needed to meet the increasingly competitive global market.

The Odonto vision is "Continuous Improvement Towards World Class Excellence." That goal has meant more than ever changing update their skills. "In hiring," states General Manager, Nick Lee, "we are looking for those who not only have shown and interest in improving themselves but indicate that this will continue in the future. In order for Odonto to compete in the global marketplace, it is essential ongoing skills development be a priority at this company."

Nick Lee is a strong advocate of continuing education. "Very often it is better to carry on education after having been in the workplace for some time. It becomes much easier for most people to identify which course would be most beneficial to their ongoing career development."

Odonto financially assists its employees in their quest to increase their knowledge or obtain new skills, and provides guidelines to aid in choosing the appropriate course of study. "The phrase Continuous Improvement Towards World Class Excellence," Nick explains, "if applied towards an individual really says everything about continuing education."

Star Employers is a new feature in VOYAGEUR which will highlight some of the many companies where St. Lawrence people find, they make a difference. If you believe you work for a star employer, let us know. Voyageur would like to help recognize some of the many companies which help to support our graduates.

Cheryl Murdock (Computers - Brockville '89) has been employed in the manufacturing division of Odonto since 1983. Cheryl counts Scuba Diving as her main leisure activity and is co-founder of the Sea Hogs Scuba Diving Club.

Robert Jackson (Production Supervision - Brockville) is another co-founder of the sea Hogs. Robert has been with Odonto in the material management division since 1985.

Lee Beaupre (Business - Cornwall '83) is a Production Supervisor in Odonto's Floss Division. Lee has fond memories of his time at St. Lawrence including being Pool Champion for three years. Now married with two children, Lee enjoys golfing and darts.

Jane Grootjans (Computers/Office Practice - Cornwall '90) is a long-time employee who feels courses at St. Lawrence have allowed her to be a versatile member of the Odonto team, performing, when needed, duties ranging from machine operation to command of the reception area and computer work. Jane is an eager reader with wide tastes who enjoys being a part-time St. Lawrence student and plans to continue courses.

Jacques Bourget (Electronic Controls - Cornwall '89) is a Maintenance Technician with Odonto. Interested in "all kinds of sports" Jacques likes to relax with fishing during the summer months.

Karen Crawford (nee Zeran/Medical Secretary - Brockville '82) is employed in the manufacturing division. Married and living in Ingleside, Karen has one son, Christopher, and says that at the moment family life is her main interest. Karen enjoyed the academic atmosphere and plans on returning to St. Lawrence as a part-time student in the future.

Lydia Beckstead (Computers - Brockville '88, Cornwall '89) Lydia worked in an office for fourteen years before deciding that a change was in order. She attained her class A licence and drove "18 wheelers" with her husband Don for three years. Following this, Lydia, who has kept her class A licence and still "will not have any vehicle in the driveway that she cannot drive," decided on another career change. Computer courses with St. Lawrence College allowed her to obtain a position in Odonto's accounting department.

Penny Campbell (nee Hall/Medical - Cornwall '80) is a Quality Assurance Technician. Outside her career, a young family keeps Penny busy but she still finds time for a wide assortment of crafts including woodworking and needlepoint.

Sandra Salmon (Secretarial - Cornwall '84) describes herself as a career woman who started as a student with Odonto over eight years ago. Presently in the Manufacturing division, Sandra believes in continuing education, "especially in the area of computers" and is a frequent part-time student at St. Lawrence. For Sandra, relaxation means reading and pursuing her interest in crafts.

Cathy Woodward (nee Carr/Computers - Brockville '89) is also part of the Manufacturing team at Odonto. Now married with a family, Cathy still finds time to enjoy her hobby of making porcelain dolls, and some of her creations are donated as raffle prizes for charity.

Ritchie Hamilton (Accounting - Cornwall '79) is a Mechanic with Odonto as well as being Emergency Response Team Coordinator, a position that goes well with his volunteer work as a fireman for the Morrisburg Fire Department. Ritchie counts "home improvement" as his main hobby and plans to return to part-time courses at St. Lawrence once his hectic schedule allows.

PREMIER'S AWARDS

The first recipients of the Premier's Awards, for outstanding achievement by graduates of Ontario's Community Colleges were announced November 18th by Richard Allen, Minister of Colleges and Universities.

Fern Hamelin, a 1972 St. Lawrence College graduate of the Civil Engineering Technology Program in Cornwall, was

one of only four Ontario graduates to receive the award.

The accomplishment and contributions that Fernand Hamelin has made to St. Lawrence College and the

community of Cornwall are indeed many. He has held positions with the federal, provincial, and municipal levels of government, and is currently Manager of Public Works for the City of Cornwall. He has been an active member of various boards at St. Lawrence including Vice-Chair of the College's Board of Governors. Fern is currently a member of the District Health Council of Eastern Ontario, an executive of Le Patriote Food Co-op, a member of La Radio Communautaire de Cornwall and has been a leader of the Boy Scouts for five years. Fern's community activities and commitment to education embody the qualities of a recipient of the 1992 Premier's Awards.

Three graduates from St. Lawrence were among the nominations received from across the province. St. Lawrence nominees, Fern Hamelin - Civil Engineering Technology 72/Cornwall, Viet Pham - Nursing '88/Brockville and Ian Wilson - Municipal Administration 76/Kingston will be honoured at a luncheon in Toronto, along with the other nominees from across the province. Attend-

MARKETING STUDENTS ARE CHAMPIONS!

A team of St. Lawrence College - Kingston 2nd and 3rd year Business Administration - Marketing students were overall winners at Ontario Colleges Marketing Competition held at St. Clair College in Windsor on November 12th and 13th. Seventeen colleges were represented with approximately 230 of Ontario's top marketing students competing in this annual event. Events in-

up the St. Lawrence team. Professor Bryan Rodney accompanied the students and coached them to their victory. Rodney stated, "They were magnificent! It was a student driven project. They committed themselves to winning and worked very hard to reach that goal and it paid off. The entire Marketing faculty is extremely proud of them!"

Business faculty assisting the Kingston

Campus team for this competition included Bill Crowe, Gerry McCready, Kip Tuckwell, Pat Doyle and Janet Robertson. The champions won with a 42 point victory. St. Clair College and Sheridan College tied for

second spot with 27 points. This is the second win for St. Lawrence in four years. In 1988, Kingston Marketing students won the championship when the event was held at their campus.

cluded a Marketing Quiz Bowl, Executive Job Interview, Advertising Problem Solving, Sales Management Problem Solving, Marketing Research Analysis, and Marketing Problem Solving over the two days. The St. Lawrence team did not compete in two of the events. This put them at a disadvantage, coupled with the fact they had only 5 team members, compared to 15 - 20 members on most of the other teams. These students prepared for three weeks together, outside of class time. Team members felt that their versatility, adaptability and depth of knowledge helped them succeed.

Three 3rd year students - Robert Gentile, Megan Leverette and Polina Shadman and two 2nd year students - Susan Johnston and Tina Romeo made

Brockville Team Places Second in "Quiz Bowl". It was tough competition but the Brockville Student Marketing team placed second in the "Quiz Bowl" section of Ontario Colleges Marketing Competition. Students taking part were: Rick Fogerty, 3rd year Marketing; Liz Hayes, 1st year Accounting; Lori-Ann Hutchcroft, 1st year Marketing; Crystal Lavery, 1st year Accounting; Jennifer Officer, 2nd year Marketing; Jackie Riede, 2nd year Marketing; Jason Trussell, 2nd year Marketing. And, congratulations to staff Howard Miller and James Wilson.

ing the luncheon with our graduates will be Dan Corbett, President of the College, Peter Jarrett, Chair of the College's Board of Governors and two charter members of our staff Bill Cruden and Dave Wilson.

The awards, established during this the Colleges' 25th Anniversary year are intended to recognize outstanding graduates of the College system.

Sharing our Future - The Campaign for St. Lawrence

Planning stages underway for \$1.5 million fund raising campaign
By Tim Kluge

As a graduate of St. Lawrence and past Student Association President, it is always interesting to be aware of special projects being undertaken by the College. Also, not often does one have the opportunity to work professionally with their alma mater. I have been given the opportunity to work with St. Lawrence College, on the planning and organization phase of the "Sharing Our Future" fund raising Campaign.

The "Sharing Our Future" Campaign is being designed to benefit all three cam-

pus of St. Lawrence and will be officially launched in 1993. The Campaign represents the first time in the twenty-five year history of the College, that St. Lawrence has turned to its communities for financial support in such an aggressive Campaign. To date, Campaign progress has been excellent, many Friends of St. Lawrence have come forward to volunteer on this special appeal for the College.

The Campaign Plan calls for individual campaigns in Kingston, Brockville, and Cornwall over a sixteen-month period. Funds raised through this special Campaign will be directed in three distinct areas: scholarships and bursaries, equipment, and the completion of the Campus Centre Building Fund in Kingston. Funds will be sought from National Corporations, Businesses, Community Organizations, Individuals, Staff, Students, Alumni, and Charitable Foundations.

The "Sharing Our Future" Campaign is aggressive, unprecedented and critical

to the future of St. Lawrence College. The Campaign will need the help of all friends of St. Lawrence. As Alumni, we can provide assistance in many ways. First of all, we can volunteer our time and secondly, we can contribute financially to the Campaign. Money and committed volunteers will ensure the success of the Campaign.

All graduates will be asked to personally participate in the "Sharing Our Future" Campaign. The Campaign will feature Alumni appeals in Kingston, Brockville, and Cornwall and organized campaigns in communities where a concentration of graduates reside. Hopefully when contacted, you will consider taking part in the Campaign.

Fund raising is new to Ontario's Colleges of Applied Arts and Technology. As graduates, we have never before been asked to support St. Lawrence financially through charitable giving. However, if colleges are to continue to prosper and evolve, we as alumni must do our part by investing in our College's future. By investing in the future of our College, we can play a role in seeing that all students have the opportunity to quality post secondary education, and also have the pleasure of sharing in the experience of College life.

The Campaign is an important step in the future of St. Lawrence College. St. Lawrence represents many different things to each and every one of us, and I hope that when the College asks for your participation, you will take the time to look back on your experiences, and support the Campaign to the best of your ability. Your participation will help ensure that the "Sharing our Future" Campaign is a success.

Tim Kluge resides in Toronto and is a fund raising consultant with Community Charitable Counselling Service of Canada Inc. Tim is an 88' grad of Business Administration - Marketing, and is a former Student Association President at the Kingston Campus.

Post Diploma Educational Opportunities

St. Lawrence College has been advised by Ryerson, School of Business Management, Faculty of Business, of their program which provides for a completion of a business degree for graduates of community colleges. Under the program, "graduates from a three year business diploma program who have a minimum grade point average of "B" will be eligible to apply for direct entry into the third year of Ryerson's four year Bachelor of Business Management Degree program."

Alumni interested in this opportunity can obtain a copy of the letter which outlines the details from Ryerson, by contacting the Alumni Development Office at St. Lawrence.

A project to "re-shape post-secondary nursing education in southeastern Ontario" has been initiated by Queen's University and supported by St. Lawrence, Loyalist and Fleming Colleges. The intent of the project is to develop a post RN baccalaureate program at Queen's that will complement the diploma programs in the three colleges.

This will allow St. Lawrence graduates to proceed to a baccalaureate degree in Nursing at a local university in less time than currently possible; will provide for easier transferability of credits and will eliminate costly duplication in basic nursing education. Program Heads and faculty from the four educational institutions will be meeting over the next eight months to develop a framework and address the complexities of designing a compatible and feasible post RN program.

Here at St. Lawrence, the Alumni and Development Office, together with two students from the Business Administration - Marketing program at conducting a study to examine the interest in continuing education opportunities for alumni. The project will also help to establish alternative methods for distributing St. Lawrence's part-time studies information.

BEHAVIOURAL SCIENCE TECHNICIANS CORNWALL REUNION

A reunion of the St. Lawrence College Behavioural Science Technician's graduating class of 1983 was held Saturday, July 25, and Sunday, July 26 in Cornwall.

The weekend event included a reunion party at Gedoro's restaurant on Saturday evening and a Family BBQ held Sunday afternoon at the residence of Dan and Bev Allaire in Glenwalter. Some of the scheduled activities at the reunion party included a Kangaroo Court and an awards ceremony while some of the events at the Family BBQ

included pony rides, pinata busting, and an appearance by a clown bearing gifts for the children in attendance.

Organizers Bev Allaire and Franca Lalonde were elated by the great response from grads and past professors alike. Individuals came from far and wide to celebrate the ninth anniversary of their graduation as a prelude to St. Lawrence College's 25th Anniversary celebrations. St. Lawrence College-Cornwall, Alumni Homecoming is scheduled for May 7-9, 1993.

The organizers would like to extend their sincere thanks to those individuals and organizations that helped make this event a success.

A great time was had by all!

ST. LAWRENCE COLLEGE 25TH ANNIVERSARY MEN'S BASKETBALL ALUMNI GAME AND SOCIAL

ST. LAWRENCE COLLEGE SAINT-LAURENT, Athletics and Alumni Departments are proud to be hosting the 2nd Annual Men's Alumni Basketball event on Friday, February 19, 1993.

The Basketball game will begin at 7pm and will feature past Viking and Big Blue graduates competing against this year's Viking team. A social will be held in SNEAKER'S PUB following the game for all players and guests.

Please join us at this 25th Anniversary event.

If you are interested in competing on the Alumni team, please fill out the form below.

Name: _____ Phone: _____

Address: _____

SLC Program graduated from: _____ Year: _____

Years Played for Vikings/Big Blue: _____ List awards received: _____

Position: _____ Present Employer & Occupation: _____

Please return by February 1, 1993 and mail to:

STUDENTS INVOLVED IN SHUTTLE EXPERIMENT

(Reprinted with permission from THE NOMAD)

On October 24, Civil Engineering Technology students at St. Lawrence College, celebrating its 25th anniversary, performed the experiment at the front entrance of the College.

The recent space shuttle mission included an experiment involving Civil Engineering students from St. Lawrence College.

While on board, Canadian astronaut Dr. Steve MacLean conducted research in space technology, space science, materials processing and life sciences on behalf of researchers across Canada.

Dr. MacLean also used some of his free time to perform a physics experiment entitled "Spin the Astronaut" developed by students at Kingston Collegiate & Vocational Institute and St. Lawrence College in Kingston under the direction of Professor Angus Ross of the Engineering Technology Department.

"Spin the Astronaut" is a demonstration of the law of conservation of angular momentum and was performed to determine Dr. MacLean's moment of inertia. Moment of inertia can be thought of as the resistance to motion, or the amount of work it takes to get a mass in motion. This is a basic principle of physics.

These physical laws are more easily shown in space than on Earth and prove that physical laws remain true in both environments.

William Shepard, a fellow crew member, set Dr. MacLean spinning. Dr.

with arms drawn in and then repeated the whole process holding food canisters of known mass. A third variation involved Dr. MacLean spinning and kicking his legs out in the middle of the spin.

How did "Spin the Astronaut" get off the ground? Professor Ross and Dr. MacLean are personal friends and have known each other for ten years. Over the years they have discussed ways to encourage Canada's youth to become interested in science and technology.

Ross said, "We both felt high school and college students would be interested in developing an experiment."

When Dr. MacLean was selected for the flight, he offered to work with Professor Ross, provided he got permission to develop a student experiment. He also invited Ross to attend the lift-off of the Columbia.

K.C.V.I., celebrating its 200th anniversary, was approached. Mr. Yelda Miedema, Head of Science and Ms Elizabeth Turcke, a science teacher at K.C.V.I. worked on the experiment last spring with a group of their students. They have a videotape of the experiment.

Dr. MacLean will be coming to Kingston in January 1993. He will be showing St. Lawrence College students a videotape from space, students will then be able to record the astronaut's rates of spin and using known measurements such as Dr. MacLean's height, arm length and mass, can calculate his moment of inertia.

Other experiment participants: Andy Orr/third-year Civil Engineering; John Hamilton/first-year Civil Engineering, and Craig Howland/first-year Civil Engineering.

CONGRATULATIONS TO

CLARE "DOC" DEADMAN

A Professor of the Photography and Graphic Reproduction Section of the Visual and Creative Arts Department, St. Lawrence College, Kingston Campus. Clare was recently awarded his thirty-year gold service pin as an International Active Member and Journeyman in the Graphic Communications International Union.

The presentation was made by William Beresh, President of local 582 G.C.I.U. Baltimore, Maryland, while Clare was there this past year.

VOYAGEUR EXPEDITION

St. Lawrence College would like to thank the many sponsors and supporters of the Voyageur Expedition.

With the very generous contributions of these organizations, the Voyageur Expedition was truly a success.

Ech Echoes Where are they now ???

Smith, Connie

Medical Secretary - 1969/Cornwall
Connie worked at the Hospital For Sick Children for eight years. She and her husband Bruce (a chemist at Du Pont) have three children: PJ (18), Robert (16), and Anne (13). Her son PJ enters University of Toronto this coming fall to study law.

Coupland, Jo-Ann

Animal Care Technology - 1973/Kingston
Jo-Ann is currently living in Grande Prairie, Alberta and works as a Primary Product Inspector 3 for Agriculture Canada. She and her husband Al Couch share a twelve-year old daughter and an eight-year old son.

MacNair, Gord

Assessment Administration - 1976/Cornwall
Gord and his wife Penny are currently living in the Ottawa area with their two daughters ages six and four. Gord is a real estate appraiser with Ontario Hydro and teaches part-time courses related to his work for various colleges throughout Ontario.

O'Donnell, Kathryn (nee Hardie)

Early Childhood Education - 1978/Kingston
Kathryn and her husband Ken returned from Germany in September where they had been living. They now reside in Chatham, New Brunswick and are very busy with their one-year old daughter Megan.

Schwerdtfeger, Cindy (nee Froats)

Medical Laboratory Technology - 1978/Kingston
Cindy is currently employed as a Senior Technologist with the Ontario Ministry of Health in Kingston. Her home is in Glenburnie.

Bennett, David

Electrical Engineering Technology - 1980/Brockville

David was married in 1985 and currently lives in Smiths Falls. He and his wife Diane have a one and a half year-old daughter Laura, and a two-month old son Adam. David completed his BSc Degree at the University of Waterloo in 1991.

Howarth, Alice

Nursing - 1980/Kingston

Alice and her husband Ross Leeder reside in Whitehorse, Yukon and have two boys ages four and six. Alice received her Public Health Diploma from the University of Windsor in 1982, and her Bachelor of Science in Nursing from the University of Saskatchewan in 1985.

Morin, Naomi (nee Allan)

Nursing (RNA) - 1980/Kingston

Naomi is employed at the KFLA Health Unit in Kingston where she and her husband Mike have their home. They have two boys: Trevor (10), and Nicholas (6). Naomi is currently back at College working towards her Social Service Worker Certificate on a part-time basis.

Chateauvert, Tom

Business Administration-Data Processing - 1981/Kingston

Tom and his wife Helen Thomas (Animal Care Technology - 1980) reside in Ottawa where Tom is a self-employed computer consultant.

Garswood, Elizabeth (nee Fraser)

Nursing - 1981/Brockville

Beth has a home in Brockville with her husband David, however, she is employed as the Acting Coordinator of the VON Alzheimer Outreach Program in Smiths Falls. In June 1992, she received her Gerontology Multidiscipline Diploma. The couple have two children Luke (5), and Emily (3).

Hofmann, Thomas

Marine Technology - 1981/Cornwall

Upon graduation, Thomas was employed by LIPS BV, Canadian branch of the Dutch propeller manufacturer. In 1990, he studied Naval Architectural Engineering at Memorial University of Newfoundland winning two prestigious awards for his studies and work. He later went on to receive his Master of Engineering (Ocean Engineering) from Memorial in 1992. Thomas has been employed by many companies of contractual basis, most recently with Memorial doing development work. In June 1992, he was promoted to professional engineer, licensed to practice engineering independently, and is currently employed by German Marine Inc. in Dartmouth.

Kellar, Catherine

Animal Care Technology - 1981/Kingston
Catherine and her husband Ross reside in Winnipeg and have a one-year old daughter, Katelyn. Catherine is taking some courses at University of Manitoba and looking for part-time work in her field.

Porter, Richard

Business Administration-Data Processing - 1982/Kingston

Richard currently lives in Brampton and is employed as Senior Sales Systems Analyst at Miles Canada Inc. He and his wife Dale married in April 1986 and have one daughter Caitlin (born June 1990). The couple are expecting child number two in November 1992.

Boisvert, Carolyn (nee Morrow)

Child Care Worker - 1983/Brockville

Carolyn and her husband Greg (Business Administration-Finance - 1981) have been married for seven years and are currently living in Lyn, Ontario. They have two children: Justin (6) and Allison (3). Carolyn is employed as a Teaching Assistant with Leeds, Grenville Board of Education in Brockville where she has been for six years now and Greg has been the Accounting Supervisor for Parke-Davis for the past four years.

May, Crystal

Child Care Worker - 1983/Brockville

After graduation from St. Lawrence, Crystal attended Trent University where she graduated with a BA in 1987. She later graduated from Queen's University with a B of Ed in 1989. She and her husband Jeff Quartus are currently living in South River, Ontario where she is employed as a Special Education Teacher with the East Parry Sound Board of Education.

Quenville, Dana (nee Copeland)

Business Administration - 1983/Cornwall
Dana and her husband Brian had recently returned to Cornwall from the Toronto area where they lived for nine years. Dana is currently unemployed and looking for work in materials or retail management.

Sabad, Michele

Business Administration-Data Processing - 1984/Kingston

Michele and her husband Don are now living in Medley, Alberta. She is a Systems Application Programmer for CF18-Weapon Systems Software Unit in Cold Lake, Alberta. The couple have two boys.

Tompkins, Julie (nee Greenham)

Advertising and Public Relations - 1984/ Kingston

Julie and her husband Phil have remained in Kingston where Julie is employed as the Public Relations Coordinator for the KFLA Health Unit. Their son, Trevor Kenneth, was born May 10, 1992.

Waldroff, Nancy (nee Van Allen)

Developmental Services Worker - 1984/Brockville

Nancy lives in Ingleside, Ontario with her husband Garnet. The couple were married in June 1991 and are anxiously awaiting the arrival of their first child in early October 1992. Nancy is employed as a Community Resource Worker at the Cardinal & District Resource Centre.

White, Lisa

Early Childhood Education - 1984/Kingston
Lisa currently resides in Toronto. She is employed as an Assistant Supervisor/School-Age Teacher at the Sandalwood Centre for Early Learning where she has been for the past five years.

Crockett, Sandy

Early Childhood Education - 1985/Kingston
Sandy is employed as a Nursery School Teacher at the Schoolhouse Playcare Centres of Durham located in Pickering. Her home is in Oshawa.

Howell, Chris

Business Administration-Marketing - 1985/Brockville

Chris and his wife Katrina were married in June 1990 and currently reside in Cobourg. Chris is employed as a Mortgage Development Officer with Montreal Trust.

Sowten, M. Kathleen

Fine Arts - 1985/Brockville

Kathleen hopes to enter University of Ottawa for an additional Fine Arts Certificate. At 55, she upgraded her education to a grade twelve level. Kathleen then spent eight years of nightschool studying and working towards both her EMD Drafting and Arts Certificates which she received in 1985. Kathleen lives in Kemptville, Ontario.

Elwood, Peter

Computer Engineering Technician - 1986/ Cornwall

Peter remained in Cornwall where he is employed as a teacher by the SDG Public Board of Education. As well, he is now a proud grandfather.

Clark, Colleen (nee Yeo)

Child Care Worker - 1987/Brockville

Colleen lives in Smiths Falls and is employed as a Training Consultant at Algonquin College.

Fox, Kim

Behavioural Science Technician - 1987/Kingston

Kim is a current resident of Scarborough where she is employed as a Welfare Visitor with the Municipality of Metropolitan Toronto Social Services. She has also been a volunteer with the Canadian Youth Basketball Organization for disadvantaged youths for the past year.

Girard, Jean-Guy

Behavioural Science Technician - 1987/Cornwall

Jean-Guy attended the University of Ottawa and graduated in 1991 with the degree BA Cum Laude Psychology. During the school year 1991/1992, he continued his studies as well as having the opportunity to participate in model United Nations Conferences held at various Universities throughout the United States. Jean-Guy will be attending University of Toronto's Bachelor of Education Program this fall with the intention of graduating with his MA in Experimental Psychology within the next two years.

Lang, Tracey

Fashion Merchandising - 1987/Kingston

Tracey lives in Beaconsfield, Quebec where she runs her own business. She is the proud owner of CASAPLANTA, a local flower and plant shop.

Murray, Sean

Electrical Engineering Technology - 1987/Kingston

Sean is employed as a Field Engineering Technologist for Paramax Electronics in Dartmouth, Nova Scotia. He explains that "Paramax Electronics" is a subcontractor for the Canadian Patrol Frigate Program and that they are responsible for the development, installation, and testing of all combat, command, and control communication and control systems aboard the Canadian Frigates.

Neddo, Jodi (nee Robson)

Child Care Worker - 1987/Brockville

Jodi and her husband Michael (Retail Merchandising - 1988) are current residents of Athens, Ontario. The couple were married in February 1989 and are enjoying their days with their one-year old son Matthew. Jodi is employed as a Teachers Aid with the Leeds/ Grenville Board of Education in Brockville.

Robertson, Julie (nee Hussey)

Data Processing - 1987/Brockville

Julie has been employed with the Leeds and Grenville Board of Education in Brockville since graduation. She started out as a computer operator, moved to programming, and is now a technical writer.

Thompson, Joanne (nee Walters)

Animal Care Technology - 1987/Kingston

Joanne and her husband Barry were married in June 1990 and is now a full-time mom. Their daughter (Bryn Rebecca) was born June 19, 1991. They live just outside of Kemptville where they farm cash crops, beef cattle, and meat goats.

Bayly, Sherren

Advertising and Public Relations - 1988/ Kingston

Sherren started a small desktop publishing business (Graphic Image) in Battersea in February 1992 that currently produces a community newspaper. Her home is now in the Hartington area.

Cunningham, Karen

Animal Health Technician - 1988/Kingston

Karen received her RNA certification on June 16, 1991 at Sir Sanford Fleming College in Peterborough and her son (Calahan Charles) arrived shortly thereafter on June 28, 1991. She currently lives in Cobourg and is employed as a Registered Nursing Assistant at the Golden Plough Lodge.

Fedchyk, Mary

Office Administration-Legal - 1988/Cornwall

Mary currently lives in Lancaster, Ontario. After graduation she was employed at McDougall Dancause et al in Cornwall until 1991, and then at McGuinty & McGuinty in Ottawa. She is currently working as a legal secretary for Paul D. Syrduk in Lancaster.

Haffner, Jerry

Registered Nursing Assistant - 1988/Kingston

Jerry is currently employed at both the Kingston General Hospital and the Kingston Psychiatric Hospital, however, Jerry is currently seeking employment outside the province of Ontario.

Saucier, Carolee

Correctional Worker - 1988/Kingston, Gas - 1989, Nursing - 1992/Cornwall

Carolee and her husband are living in Cornwall. She works part-time as a registered nurse at the Cornwall General Hospital. They are expecting child number two nine years later.

Horton, David

Graphic Design - 1988/Kingston

David and his wife (Kelly Chartier-Horton ... Hairstyling 1989/Kingston) currently live in Brockville and have a son Jacob. David is a chef at The "Skiff" and Kelly is a hairstylist at Delilah's.

Albertson, Sharon

Computer Programmer - 1988/Kingston
Sharon remained in Kingston after graduation. She is employed as a School Support Analyst with the Frontenac, Lennox and Addington Roman Catholic School Board.

Primeau, Donna (nee Pilon)

Office Administration (Legal & Executive) - 1988

Donna and her husband, Harvey currently reside in Ingersoll where Donna is employed as an executive secretary with Laidlaw Carriers Inc. The couple were married May 11, 1990.

Killeen, Kelly Ann

Early Childhood Education - 1989/Kingston
Kelly is a current resident of Pakenham, Ontario. She is employed as Head Teacher of the Toddler Program at The Childrens Place Daycare in Kanata.

McEvoy, Mike

Business Administration-Marketing - 1989/Brockville

Mike and his wife Audrey (nee Burchill ... Child & Youth - 1990) have settled in Kitchener. He is a Sales Analyst with Weston Bakeries Ltd.

McLean, Susan

Legal Assistant - 1989/Kingston

Susan resides in Smiths Falls and is employed as a Deputy Clerk with the Township of Goulbourn.

Purser, James

Data Processing - 1989,

Municipal Administration - 1990,

Public Administration - 1992/Kingston

James has decided to remain in the Kingston area. He is employed with the Corporation of the City of Kingston as the Records Manager, and Information and Privacy Coordinator.

Welvaert, Fabienne

Animal Care Technology - 1989/Kingston

Fabienne and her husband Thomas Harder were married in September 1992 and reside in the Amherstview area. She is employed as an Animal Care Technologist at the Cataraqui Animal Hospital.

Davies, Theresa (nee Edwards)

Office Administration - 1990/Kingston

After fifteen years of being a single parent, Theresa returned to school focusing her studies on the Office Administration program. She has since married (December 21, 1991) and is now the proud mother of four boys and one girl, as well as a grandmother of three.

Evans-Daley, Joanne

Medical Laboratory Technology -

1990/Kingston

Joanne and her husband Christopher are now living in Metcalfe, Ontario where they have built their dream home. Joanne loves her chosen field and works two part-time jobs. She is employed at Winchester District Memorial Hospital as an RT in all departments and labs and as an RT in the Biochemistry department at C.H.E.O. in Ottawa.

Everett, Jay

Business Administration-Finance -

1990/Kingston

Jay has settled on the west coast in Burnaby, British Columbia and professes to loving every minute of it. He maintains he is still single, has been a Big Brother, and loves his job. He is employed as a Sales Representative with Team Sales.

Hewlett, Tracey

Business Administration-Marketing -

1990/Kingston

Tracey is employed at the Toronto-Dominion Bank in Toronto where she has been living for the past two years.

Robertson, Philip

Child & Youth Worker - 1990/Kingston

Philip and his wife Donna (Office Administration - 1988/Kingston) have remained in the Kingston area recently purchasing their first home in Pittsburgh Township. Both work at the College, Philip is employed as a General Studies Counsellor, and Donna is employed as a Clerk/Typist. Both enjoy their jobs very much and are the proud parents of a ten-month old girl, Emily.

Villeneuve, Sonia

Early Childhood Education - 1989, ECRT - 1990/Kingston

Sonia is employed as an Early Childhood Resource Teacher at Community Living Stormont County in Cornwall. Her home is in Moose Creek, Ontario.

Brown, James "John"

Nursing - 1991/Brockville

James has settled in Greenville, North Carolina. He is employed as a pediatric RN at the Children's Hospital of Eastern North Carolina located within Pitt County Memorial Hospital.

Cartier, Renee (nee Ledwinka)

Office Administration-Legal - 1991/Cornwall

Renee is employed as a legal clerk for Henry J. Bradley, QC, Barrister & Solicitor in Pembroke. She is excited to have finally found and met her biological father in November 1991 after sixteen years. Renee attended his wedding in May 1992 and visits him and his new wife regularly in Kingston.

Emard, Rick

Business Administration-Information Systems - 1991/Cornwall

Rick is employed as a Programmer/Analyst for Revenue Canada (GST Department) in Ottawa.

Fairthorne, Linda (nee Brissard)

Business Administration - Management/ Cornwall

Linda married Mark Fairthorne November 2, 1991, and the couple now reside in Prescott.

Johnson, Mike

Business Administration-

Information Systems - 1991/Kingston

Mike is currently employed as a Consultant for CGI Group in Ottawa. He is planning to move to Australia to work for a couple of years and is in the process of obtaining and establishing sufficient experience to enable him to do so.

Warner, Patrick

Electronic Engineering Technician-

Microcomputers - 1990/Cornwall

Patrick and his wife Christine have remained in the Cornwall area. He is involved with sales at JB Marketing.

Webster, Darren

Appraisal - 1991/Cornwall

Darren is currently living in Gravenhurst and is registered to attend Carleton University in September 1992 to study Law.

Gargaro, Tony

Human Resource Management -

1992/Kingston

Tony is employed by Falcon Express as a contractor for Bell Canada in Kingston.

Where you work is important to us!

Your address at work is a very important addition to your alumni record here at the College.

Employer information helps us:

To identify major employers who directly benefit from the hiring of skilled graduates from St. Lawrence College.

To locate other "lost alumni" through special promotions with employers.

To identify alumni employed in specialized occupations and industries who could provide advice and direction to the college through our network of program advisory committees.

To provide information directly to employers regarding continuing education opportunities at St. Lawrence

To identify major employers of our graduates for future matching gift fundraising initiatives.

Please take five minutes now to add employment information to your alumni records by completing the "Update Your Alumni Record" mailback/FAXback form on page 24 of this issue of VOYAGEUR.

Cornwall Campus Alumni...Mark your calendar now for

Cornwall Alumni Homecoming Weekend

May 7 - 9, 1993

Contact the Alumni Development Office
at (613) 933-6080 ext.1617 for pre-registration information.

Send us your card!

Please send us your business card along with the attached information indicating your program of study, campus attended and year of graduation and we'll add it to the display. The card display, illustrating alumni at work, will be exhibited as part of the college's 25th anniversary celebrations beginning later this year.

If you do not have a business card, we would still like to see you included in the display. Please complete the information below and send it along with a sheet of letterhead from your place of employment. We'll take it from there.

_____ My business card is attached.

_____ I don't have a business card but, please find attached a sheet of letterhead from my place of employment.

I graduated from St. Lawrence, _____ Campus

in 19____. While at the college I studied _____.

Send to: Alumni Development Office, St. Lawrence College,
C/O King & Portsmouth
Kingston, Ontario K7L 5A6

"TO ST. LAWRENCE....."

To help mark our 25th anniversary, St. Lawrence has selected two Hillebrande Estates wines for special bottling. The white is Hillebrande's Chardonnay and the red, is their Marechal Foch. Both are priced at \$10/ bottle and display our 25th anniversary label.

Now you can help toast our 25th and help support alumni programs at St. Lawrence with some of Canada's best wine.

St. Lawrence, 25th anniversary wine is available through the Hillebrande Estate Wines outlet in the Cataraqui Town Centre in Kingston or by contacting the Alumni Development Office through the campus nearest you at extension 1617.

.....CHEERS"

ATTENTION

KINGSTON NURSING GRADUATES

Our Nursing Alumni Association will be undergoing restructuring in the near future. We will keep you informed of new ideas and changes in the next issue of "Voyageur."

Lidia Robb, President
Kingston Nurses Alumni
St. Lawrence College
(389-6931)

CONGRATULATIONS

TONY!

Tony Barber, Professor at the Cornwall campus was elected Vice-President and President Elect of the Appraisal Institute of Canada at the institute's annual conference which was held in Calgary this June.

Hats off to Bill

Anderson

Professor in the Civil Engineering program at the Kingston campus. Bill recently completed two years of full and part-time study at Clarkson University in Potsdam, New York and has earned his Masters Degree in Environmental Engineering.

Bill's return to the classroom as a student is certain to help strengthen the Civil Engineering program at St. Lawrence.

25TH ANNIVERSARY PHOTO CONTEST

To help capture the memories of our 25th Anniversary celebrations, Voyageur is sponsoring our first photo contest.

Photos collected over the year will be judged in the summer of 1993. Contest winners will have their photos published in the October 1993 issue of Voyageur.

Prizes will be awarded in two categories:
St. Lawrence Alumni
at Work or Play,
and
St. Lawrence People
(students / staff / alumni/
friends of the College)
celebrating our
25th Anniversary.

Prize descriptions will be published in the Spring '92 issue of Voyageur.

Please review the following contest rules then complete the entry form below.

- 1) The Voyageur photo contest, celebrating the 25th Anniversary of St. Lawrence College is open to alumni, staff, and students of the College. You may enter as often as you like.
- 2) Photos must have been taken between June 1, 1992 & July 1, 1993.
- 3) Black and white photos, colour photos, and colour 35mm slides are eligible.
- 4) On the back of your print or slide entry must appear your name, address, phone number, and the title of your entry.
- 5) Entries must be received by July 15, 1993 but will be accepted at any time prior to this date.
- 6) By entering you agree to transfer ownership of your entry to St. Lawrence College to be used at the College's discretion, and that you understand your work will not be returned (simply ask for a second set of prints when developing and send us the best of your photos).
- 7) By signing the entry form below you also declare that the photograph is your own original work and that any recognizable individual(s) in your photo agrees to the possible publishing of your photo by the College.
- 8) All entries will be judged by a panel of independent photographers and at least one editor of Voyageur.

THE DECISIONS OF THE JUDGES WILL BE FINAL.

12,000 found so far, but we're... Still Looking For Lost Alumni

Yes, we're still looking for St. Lawrence alumni to add to our Voyageur distribution list. And, we could sure use your help!

If you know of St. Lawrence alumni who did not receive this issue of Voyageur, send us their "vitals" on this form and we'll be sure to add them to the list.

To add a little incentive, you'll have a chance to win a 25th Anniversary St. Lawrence T-shirt from Semester's Boutique, the college's clothing and logo store. With every alumnus/a that you help us find, we'll enter your name in our "I found a lost alumnus/a draw".

The draw will take place January 30

Complete the mail-back/fax-back form & get it in before January 30.

The winner will be announced in the Spring issue of Voyageur.

(Please complete as much information as possible. Feel free to make copies of this form if you can find more than one alum)

Winner of the Sweatshirt from the last issue was Cindy Schwerdtfeger-Med Lab/78-K.

Thanks to Cindy for helping to find 98 of our Alumni.

I found an alumnus/a...

Kingston Homecoming

Kingston Alumni,
Join us for Homecoming/93
June 25 - 27/1993

To help celebrate our 25th anniversary

Special events and activities include:

Golf Tournament • 1000 Island Cruises • Wine and Cheese
Recreational slow pitch tournament
Kids day at Lake Ontario Park
Dancing to the music of your college days
Sunday Brunch • Time capsule • Memory Lane

Call the old gang and book your June 25 -27 weekend in Kingston now.

Several academic programs and the Student Association are planning reunions of their own to coincide with the major Homecoming weekend events.

If you are interested in planning a special gathering for your program group class or sports team, contact the Alumni Development Office for help with finding your classmates.

For registration information call the Alumni Development Office at 613-544-5400 Ext 1617

**The Kingston Campus Student Association
invites all former Student Government representatives, pub staff,
Radio Club and NOMAD staff to a special reunion,
Homecoming Weekend, June 25th - 27th, 1993.**

If you were involved with any of these groups during your years at St. Lawrence, contact the Student Association office at 613-544-5400 for more information.

Do you know any of the lost alumni on this page?

Unfortunately these grads are not able to read Voyageur because we do not have a current mailing address for them.

You can help! If you know any of the alumni listed here, let them know what they are missing.

Ask them to contact the Alumni Development Office

and we will send them the most recent issue of Voyageur and their St. Lawrence College Alumni card.

The Alumni Development Office can be reached through the campus nearest you.
