

BIOTECHNOLOGY

COMBINED DEGREE AND DIPLOMA

A new joint program with St. Lawrence College and Queen's University combines a **degree and diploma in Biotechnology**.

The new interdisciplinary program with a strong emphasis on laboratory based learning will combine the applied training of a college diploma and the research acuteness of a university degree - ensuring that students graduate with a unique set of skills and hands-on experience.

Why study in **KINGSTON?**

Kingston is at the core; just a quick drive to Toronto, Montreal, Ottawa and even New York. With more restaurants per capita than any

other city in Canada and known around the globe as the fresh water sailing capital of the world. Students fall in love with our schools and with our city – *and you will too.*

Careers in **BIOTECHNOLOGY**

Biotechnologists work with living organisms and other biological systems to help improve our lives by **discovering new drugs, improving crop production, and helping to discover novel forms of sustainable energy.** The degree and diploma program can lead to careers such as Environmental Conservation, Animal Research or Pharmaceutical Development.
