

Brockville Campus				
Course Name / Description	Course Codes	Class Type	Semester	Day/Time
<p>Introduction to Canadian Business (42 hours): This course will integrate key business concepts and practices to give the student an appreciation of the diversity of roles that must function together for an organization to be successful. The essential skills required for effective interaction and decision-making will comprise the bulk of the course. Key topic areas include management principles and practices, ethics and social responsibility, organizational strategy, motivation and leadership, information technology, and accounting and financial management.</p>	<p>College: ADMIN 1000</p> <p>Ministry: BBJ4T</p> <p>SCWI: 9.21</p>	Integrated	Fall	TBD
<p>Accounting Fundamentals (60 hours): In Accounting Fundamentals students create, use, and discuss foundational financial information. Students discuss the fundamental elements of accounting and their impact on business operations. By using accounting software to perform accounting operations students learn the elements of accounting software and routine accounting statements. Note: Students should have completed Grade 11 college math, at a minimum, before applying for this course.</p>	<p>College: ACCT 20</p> <p>Ministry: BAA4T</p> <p>SCWI: 9.21</p>	Integrated	Fall	TBD
<p>Introduction to Paint Medium and Techniques (45 hours): This studio course introduces basic colour theory principles using watercolour and acrylic mediums. Examination of colour history, its psychological effect, and symbolism are explored using a wide variety of traditional tools and techniques. Students experiment in creating finished work that inter- mix water-based media. Design elements such as composition are reinforced through the examination of traditional and contemporary still life, vignettes, and other subject matter within a personal cultural context. A combination of practice and portfolio assignments will emphasize management of paint, brush techniques, tools and supports.</p>	<p>College: ARTS 1005</p> <p>Ministry: TBD</p> <p>SCWI: 9.21</p>	Integrated	Fall	TBD

Brockville Campus				
Course Name / Description	Course Codes	Class Type	Semester	Day/Time
<p>Human Sexuality (42 hours): This course provides the opportunity to study human sexuality from a number of perspectives while exploring and integrating biological, socio cultural and psychological influences.</p>	<p>College: GENE 31</p> <p>Ministry: HHB4T</p> <p>SCWI: 9.21</p>	Integrated	Fall	Tuesdays 2:30 p.m. - 5:30 p.m.
<p>Intercultural Communications (42 hours): This introductory online course highlights the complex and dynamic components of cultural groups and their interactions. Students reflect on their own cultures and learn about others through various theoretical perspectives including Social Science, Interpretive Approach, and Critical Approach. Based on concepts of history, power, and identity, students learn how intercultural communication is affected by language, non-verbal communication, culture shock, popular culture, relationships, and conflict. Students discuss how these theories can be used to examine differences between cultures.</p>	<p>College: GENE 165</p> <p>Ministry: TBD</p> <p>SCWI: 9.21</p>	Integrated	Fall	Thursdays 2:30 p.m. - 5:30 p.m.
<p>Indigenous Storytelling (42 hours): Indigenous cultures have long passed on knowledge through generations through storytelling. This course will examine the role storytelling has in transmitting knowledge about cultural beliefs, values, customs, history, practices, relationships, and ways of being and living in the world. Storytelling as a foundation for holistic learning, relationship and community building, and an avenue for meaningful experiential learning will be discussed. This course will explore storytelling in a variety of forms ranging from oral traditions, Indigenous literature, arts, multimedia, songs, dances, and other modes of creative expression.</p>	<p>College: GENE 192</p> <p>Ministry: TBD</p> <p>SCWI: 9.21</p>	Integrated	Fall	Tuesdays 2:30 p.m. - 5:30 p.m.

Brockville Campus				
Course Name / Description	Course Codes	Class Type	Semester	Day/Time
<p>Formal Hairstyling: In this course, students will perform hairstyling skills with a focus on formal styling. The theoretical component will include, design techniques used in hairstyling services for the purpose of creating suitability. In the lab, students will ensure safe working practices while implementing a variety of formal styles and finishing techniques.</p>	College: HAIR 212 Ministry: TBD SCWI: TBD1	Congregated	Fall	TBD
<p>Acting: This foundational course introduces students to a variety of acting methods such as Stanislavsky, Hagen, Adler, Meisner, Strasberg. Through systematic assessment of their written assignments and in-class participation in practical exercises and improvisation, students have the opportunity to develop their skills as an emerging actor.</p>	College: MUTH 101 Ministry: TBD OSCWI: TBD2	Congregated	Fall	TBD
<p>Musical Theatre Performance: This applied course prepares students to perform songs at a basic level in a variety of periods and styles from the musical theatre repertoire. Through systematic assessment of their written assignments and performance, students have the opportunity to improve their ability to prepare and perform songs suitable for audition purposes.</p>	College: MUTH 100 Ministry: TBD SCWI: TBD3	Congregated	Winter	TBD
<p>Psychology - Police Foundations (42 hours): In this introductory level course students learn to apply basic psychological concepts including scientific research methods, biological basis of behaviour, perception, states of consciousness, learning, motivation, and theories of personality. Emphasis is placed on the causes and consequences of normal and abnormal behaviour.</p>	College: POFP 102 Ministry: HBG4T SCWI: 9.21	Integrated	Fall	TBD

Brockville Campus				
Course Name / Description	Course Codes	Class Type	Semester	Day/Time
<p>Sociology - Police Foundations (42 hours): The students will adopt a sociological perspective for analysis of social events. Studies of societies, culture, socialization, and social change are included. Students will study and survey areas relating to Canadian society and culture including social inequalities, social interaction, and collective behaviour.</p>	<p>College: POFP 103</p> <p>Ministry: HSF4T</p> <p>SCWI: 9.21</p>	Integrated	Fall	TBD
<p>Personal Support Worker - Human Body Structure, Function & Maintenance (42 hours): This course introduces the student to the basic structure, function, and maintenance of the human body throughout the lifespan. Topics will include basic anatomy, physiology, nutritional needs, hygiene, body mechanics and alignment, infection control and stress management. Health promotion and age-related changes are included.</p>	<p>College: PSWO 1100</p> <p>Ministry: PSA4T</p> <p>SCWI: 9.21</p>	Integrated	Fall	TBD

Cornwall Campus				
Course Name / Description	Course Code	Class Type	Semester	Day/Time
<p>Introduction to Game Programming/Design (60) hours): In this course, students learn to program in C/C++ from first principles. Standard software design methodologies are presented and used. Students create simple 2D games using custom design and programming techniques.</p>	<p>College: GAME 102</p> <p>Ministry: IBU4T</p> <p>SCWI: 9.21</p>	Integrated	Fall	TBD

Cornwall Campus				
Course Name / Description	Course Code	Class Type	Semester	Day/Time
<p>Computer Graphics and Modelling (42 hours): This course introduces students to the creation of 2D digital images, 3D game assets and the design of levels using assets. Topics include; sprite sheets, character creation, polygon modeling, texturing, lighting, animations, building expansive landscape environments and exporting assets to game engines. Course learning activities center on the game development pipeline, workflow and best practices. The game art skills learned in this course are used to help enhance game projects throughout the program.</p>	<p>College: GAME 110</p> <p>Ministry: IBP4T</p> <p>SCWI: 9.21</p>	Integrated	Fall	TBD
<p>Web Development and Databases (42 hours): This is a web design and database development course. Using HTML5, JavaScript and CSS, students learn to design a professional web portfolio where they showcase various projects related to career applications. Using databases and server-side scripting, students examine scalable data models and structures, query databases for results and create a dynamic leaderboard application during their lab activities.</p>	<p>College: GAME 111</p> <p>Ministry: IBD4T</p> <p>SCWI: 9.21</p>	Integrated	Fall	TBD
<p>Film Studies (42 hours): This course is designed to enhance knowledge and appreciation of the greatest twentieth century art form. Students will learn about the history of film, how films are made, how the movie industry operates, and how to appreciate and analyse films. The course is essential for anyone who wants to develop a lifelong joy for movie watching whether it be on video or the big screen.</p>	<p>College: GENE 25</p> <p>Ministry: JAL4T</p> <p>SCWI: 9.21</p>	Integrated	Fall	Thursdays 2:30 p.m. - 5:30 p.m.
<p>Human Sexuality (42 hours): This course provides the opportunity to study human sexuality from a number of perspectives while exploring and integrating biological, socio cultural and psychological influences.</p>	<p>College: GENE 31</p> <p>Ministry HHB4T</p> <p>SCWI: 9.21</p>	Integrated	Fall	Tuesdays 2:30 p.m. - 5:30 p.m.

Cornwall Campus				
Course Name / Description	Course Code	Class Type	Semester	Day/Time
<p>Introduction to Psychology (42 hours): This course presents an overview of psychology as a behavioural science and assists students in the observation and explanation of human behaviours and personality development. Topics of study include sensation, perception, alternate states of consciousness, motivation, learning and intelligence, memory and cognition, abnormal psychology, interpersonal relationships, and current psychological therapies.</p>	College: GENE 38 Ministry: HBB4T SCWI: 9.21	Integrated	Fall	Tuesdays 2:30 p.m. - 5:30 p.m.
<p>Personal Stress Management (42 hours): This course allows students to plan and implement effective stress management strategies in their personal lives. Students develop an informed understanding of the nature of stress and the stress response including causes, signs and symptoms, effects and impact. The course also focuses on the development of skills to reduce the negative impact of stress and to redirect inevitable stressors to improve health and well-being. Students analyze the impact of stress in their own lives and apply stress management strategies by designing, implementing, and evaluating a personal wellness plan.</p>	College: GENE 57 Ministry: JDC4T SCWI: 9.21	Integrated	Fall	Thursdays 2:30 p.m. - 5:30 p.m.
<p>Wellness (42 hours): This course examines the components and effects of personal wellness. Aspects explored include the emotional, social, physical, intellectual, spiritual and community/environmental contributors to wellness. It provides students with the opportunity to evaluate their own personal health and well-being in a holistic manner.</p>	College: GENE 73 Ministry: PPI4T SCWI: 9.21	Integrated	Fall	Thursdays 2:30 p.m. - 5:30 p.m.

Cornwall Campus				
Course Name / Description	Course Code	Class Type	Semester	Day/Time
<p>Field to Fork (42 hours): This course explores food's circular journey - from the farm fields where heirloom and biotech seeds are sown - into fast food and artisanal cheese factories - out to grocery stores, farmers markets, and restaurants - onto our dinner tables, forks and taste buds - and back to the beginning via composters and landfills. Course content is a wild mix and includes issues like biotechnology, organic farming, globalization, climate change, peak oil, water scarcity, food security, obesity, hunger, and the global food price crisis. It serves as an introduction to practical opportunities and challenges in making food system changes happen on local and global political, economic, and ecological levels.</p>	<p>College: GENE 158</p> <p>Ministry: PPI4T</p> <p>SCWI: 9.21</p>	Integrated	Fall	Thursdays 2:30 p.m. - 5:30 p.m.
<p>Indigenous Storytelling (42 hours): Indigenous cultures have long passed on knowledge through generations through storytelling. This course will examine the role storytelling has in transmitting knowledge about cultural beliefs, values, customs, history, practices, relationships, and ways of being and living in the world. Storytelling as a foundation for holistic learning, relationship and community building, and an avenue for meaningful experiential learning will be discussed. This course will explore storytelling in a variety of forms ranging from oral traditions, Indigenous literature, arts, multimedia, songs, dances, and other modes of creative expression.</p>	<p>College: GENE 192</p> <p>Ministry: TBD</p> <p>SCWI: 9.21</p>	Integrated	Fall	Tuesdays 2:30 p.m. - 5:30 p.m.

Cornwall Campus				
Course Name / Description	Course Code	Class Type	Semester	Day/Time
<p>Exploring Trades & Technology (42 hours): The skilled trades and technology are an important and dynamic part of contemporary life. Understanding how we are all impacted by advancements in these fields can help us live better, more well-informed, and sustainable lives. Through an introduction to a variety of topics, this course will challenge students to build their knowledge, understanding, and confidence with the trades and technology. Students will also have an opportunity to further develop their problem-solving and innovation skills through engaging and practical projects. Topics of exploration could include, but not limited to, automotive, carpentry, welding, plumbing, and millwright.</p>	<p>College: GENE TBD</p> <p>Ministry: TBD</p> <p>SCWI: 9.212</p>	Congregated	Winter	TBD
<p>Welding & Fabrication Level 1 (42 hours): This course develops the basic welding skills required by the Mechanical Technician to enable them to join metals. Students develop the knowledge and ability to safely set-up and operate oxyacetylene and arc welding equipment to weld, braze, and cut to specifications. Students learn about flat and horizontal welding positions using plate steel.</p>	<p>College: MECT 102</p> <p>Ministry: TLL4T</p> <p>SCWI 9.199</p>	Congregated	Fall & Winter	TBD
<p>Canadian Criminal Justice System (42 hours): Canadian Criminal Justice System (42 hours): This introductory course provides the student with an overview of the Canadian criminal justice system with a particular emphasis on the history, function, role, and organization of Canadian law enforcement services. The operation of the criminal justice system is examined and analysed in light of contemporary issues affecting the system. Each of the major components from enforcement through the courts and correctional services is explored.</p>	<p>College: POFP 101</p> <p>Ministry: HCB4T</p> <p>SCWI: 9.21</p>	Integrated	Fall	TBD

Cornwall Campus				
Course Name / Description	Course Code	Class Type	Semester	Day/Time
Psychology - Police Foundations (42 hours): In this introductory level course, students learn to apply basic psychological concepts including scientific research methods, biological basis of behaviour, perception, states of consciousness, learning, motivation and theories of personality. Emphasis is placed on the causes and consequences of normal and abnormal behaviour.	College: POFP 102 Ministry: HBG4T SCWI: 9.21	Integrated	Fall	TBD
Sociology - Police Foundations (42 hours): In this course, students adopt a sociological perspective for analysis of social events. Studies of societies, culture, socialization, and social change are included. Students study and survey areas relating to Canadian society and culture including social inequalities, social interaction, and collective behaviour.	College: POFP 103 Ministry: HSF4T SCWI: 9.21	Integrated	Fall	TBD
Carpentry (42 hours): This course will introduce the carpentry trade; students will gain practical hands-on experience by working in the carpentry shop. Projects will focus on developing fundamental skills needed to pursue a career in carpentry. Projects will include measuring, cutting, and shaping wood and wood products, as well as the construction of a wood-framed structure. During scheduled lab times, theory material will be presented on a one-on-one basis as well as group teaching.	College: TRAD 2 Ministry: TBD SCWI: 9.198	Congregated	Fall & Winter	TBD

Kinston Campus				
Course Name / Description	Course Codes	Class Type	Semester	Day/Time
<p>Bookkeeping (42 hours): This course enables the student to develop an understanding of the systems and methods of applying the principles and concepts of bookkeeping. Students learn a systematic approach towards completion of the accounting cycle for both a service and merchandising operation. Peripheral areas include internal control of a petty cash fund and preparation of a bank reconciliation statement.</p>	College: ACCT 26 Ministry: BAD4T SCWI: 9.21	Integrated	Fall	TBD
<p>Introduction to Biotechnology (42 hours): This course provides students with an introduction to the practical skills aspect of Biotechnology focusing on laboratory techniques that reinforce GLP, aseptic techniques, team building and documentation.</p>	College: BIOL 154 Ministry: SBS4T SCWI: 9.21	Integrated	Fall	TBD
<p>Cell Biology (42 hours): An introductory course to Biotechnology/Medical Laboratory Science/Veterinary Technology students, covering the biological and chemical principles of the cell with reference to energy flow, structure and function, anatomy, reproduction, genetics, and cell diversity.</p>	College: BIOL 150 Ministry: SBC4T SCWI: 9.21	Integrated	Fall	TBD

Kinston Campus				
Course Name / Description	Course Codes	Class Type	Semester	Day/Time
<p>Introduction to Canadian Law and Government (56 hours): This course provides a general overview of the development of legal principles, rights, and responsibilities in the Canadian context, and how they may be applied to selected areas of law that form the substance of other courses in the Law Clerk program. A look at the sources and divisions of law leads into an examination of the Constitution, including its historical development, and the Canadian Charter of Rights and Freedoms in particular. The course also examines the structure and organization of government in Canada. The executive, legislative and judicial branches are examined, together with contemporary issues in Canadian politics. The structure of the court system is introduced, as are administrative and regulatory bodies. The process by which legislation is developed and implemented is examined. The ethical obligations and roles of legal professionals to the public is provided, as well as the governance by the provincial Law Society.</p>	<p>College: BLAW 10</p> <p>Ministry: BBL4T</p> <p>SCWI: 9.21</p>	Integrated	Fall	TBD
<p>Foundations of the Child and Youth Care Profession (42 hours): In this course, students are introduced to the professional practice of Child and Youth Care. Students examine the core principles, characteristics, and connections between the key domains of the field. Students explore career opportunities with children, youth, and families; the history and context of the profession; self- awareness; and intervention strategies needed for success in the program and field. Course content is delivered through a variety of interactive and collaborative learning methods.</p>	<p>College: CAYW 1015</p> <p>Ministry: TOS4T</p> <p>SCWI: 9.21</p>	Integrated	Fall	TBD

Kinston Campus				
Course Name / Description	Course Codes	Class Type	Semester	Day/Time
<p>Activity-based Interventions (42 hours): This course is designed to equip students with the professional mindset, conceptual framework, and technical skills necessary to select, program, facilitate, and evaluate activity-based interventions for children and youth. Students are introduced to the value of using play-based interventions to meet a variety of client needs and programming outcomes. Students explore the role that leadership, setting, relationship, and group dynamics play in effective programming. This course includes an applied learning component in which students facilitate planned interventions in a variety of settings, to match the needs of prospective clients.</p>	College: CAYW 110 Ministry: PLH4T SCWI: 9.21	Integrated	Fall	TBD
<p>Culinary Techniques (56 hours): In this practical lab course, students develop foundational culinary techniques in a production kitchen. Students demonstrate the ability to plan, prepare, and present menu items. Students learn to follow technical instructions, develop knife skills, and practice classical cooking methods and techniques in food preparation.</p>	College: CHEF 104 Ministry: TBD SCWI: 9.195	Congregated	Fall & Winter	TBD
<p>Culinary Techniques SHSM (56 hours): In this practical lab course, students develop foundational culinary techniques in a production kitchen. Students demonstrate the ability to plan, prepare, and present menu items. Students learn to follow technical instructions, develop knife skills, and practice classical cooking methods and techniques in food preparation.</p>	College: CHEF 104 Ministry: TBD SCWI: 9.187	Congregated	Fall & Winter	TBD

Kinston Campus				
Course Name / Description	Course Codes	Class Type	Semester	Day/Time
<p>Baking Foundations (56 hours): This course provides students with an introduction to the theory, science, and application of fundamentals techniques in the professional bakeshop. Students apply the knowledge of how various ingredients interact and develop the skills required to prepare yeast products, quick bread, pies, pastries, cookies, custards, and sweet/savory fillings.</p>	College: CHEF 106 Ministry: TUA4T SCWI: 9.197	Congregated	Fall & Winter	TBD
<p>Baking Foundations SHSM (56 hours): This course provides students with an introduction to the theory, science, and application of fundamentals techniques in the professional bakeshop. Students apply the knowledge of how various ingredients interact and develop the skills required to prepare yeast products, quick bread, pies, pastries, cookies, custards, and sweet/savory fillings.</p>	College: CHEF 106 Ministry: TUA4T SCWI: 9.188	Congregated	Fall & Winter	TBD
<p>Web Development SHSM: This course introduces students to web development using HTML, CSS, and JavaScript. Students learn to use HTML to create web pages and to link multiple web pages together. Students also learn how to control the layout and style of web pages using Cascading Style Sheets (CSS) and to make web pages interactive using JavaScript. Students engage in a sequence of assignments designed to familiarize them with HTML, CSS, and JavaScript.</p>	College: COMP 205 Ministry: TBD SCWI: 9.186	Congregated	Fall	TBD

Kinston Campus				
Course Name / Description	Course Codes	Class Type	Semester	Day/Time
<p>Drawing for Designers (42 hours): This course teaches observational skills required for accurate visual rendering and technical abilities to visualize two and three- dimensional subject matter. Students will be introduced to the process connecting an idea to the expression and development of a finished image. Students will be prepared to conduct research from a variety of sources then synthesize and develop original art pieces and designs. Using various drawing tools, media and surfaces, students will learn several drawing approaches to represent natural and inorganic objects.</p>	<p>College: DESI 141</p> <p>Ministry: AEB4T</p> <p>SCWI: 9.21</p>	Integrated	Fall	TBD
<p>Programmable Logic Controllers (SHSH): This course introduces students to programmable logic controllers (PLCs) and their uses in industrial automation. In this course students state the functions and applications of Programmable Logic Controllers (PLCs). Students learn to determine the language and addressing requirements of a PLC and demonstrate the programming of common relay instructions, timers, counters, mathematic functions, and word comparisons within a PLC. Students learn proper methods of safe, acceptable programming practices including clear documentation and identify methods of installing a PLC system and perform hard wiring of PLCs to equipment. Students also demonstrate methods of testing PLC inputs and outputs and design programs to operate machines in a desired manner using many of the internal functions of a PLC.</p>	<p>College: ELET 403</p> <p>Ministry: TBD</p> <p>SCWI: 9.189</p>	Congregated	Fall	TBD

Kinston Campus				
Course Name / Description	Course Codes	Class Type	Semester	Day/Time
<p>Nail Care Techniques: Nail care techniques are an important element of the Esthetician field. This course provides you with the knowledge and practical skills for performing safe and professional manicures and pedicures as well as specialized treatments such as scrubs, paraffin, and nail art using the appropriate implements and products. Through the consultation process and hands-on observations, you learn about various nail care techniques along with specific disorders and diseases of the nails and surrounding tissue.</p>	<p>College: EST 12 & ESTH 101</p> <p>Ministry: TXO4T</p> <p>SCWI: 9.201</p>	Congregated	Fall	TBD
<p>Makeup: This focus of this course is on the theory and practical skills of makeup application. Topics include but are not limited to; morphology, facial shapes, and balance, colour classifications, observations, and factors to consider prior to makeup application, proper steps and techniques involved in makeup application, supplies, brushes products used, and their ingredients. Through hands-on demonstrations, you learn to create and apply a variety of makeup styles suitable for day, evening, bridal and special events to meet client needs.</p>	<p>College: EST 43</p> <p>Ministry: TXI4T</p> <p>SCWI: 9.203</p>	Congregated	Fall & Winter	TBD

Kinston Campus				
Course Name / Description	Course Codes	Class Type	Semester	Day/Time
<p>Fitness – Group Exercise & Leadership: In this course, students gain practical experience required to plan and instruct a safe and effective group exercise class. Topics include phrasing and cueing music, leadership and motivational techniques, components of a fitness class, and monitoring proper exercise technique. Students will have the opportunity to obtain a group fitness certification through Ontario Fitness Council. Students also learn how to develop a lesson plan and facilitate a physical activity class. The students gain valuable practical experience implementing the lesson plan by running a safe and effective class which includes facilitating transition activities, games of low organization, modifying activities, and risk management strategies.</p>	College: FAHP 16000 Ministry: TBD SCWI: 9.196	Congregated	Fall	TBD
<p>Film Studies (42 hours): This course is designed to enhance knowledge and appreciation of the greatest twentieth century art form. Students will learn about the history of film, how films are made, how the movie industry operates, and how to appreciate and analyse films. The course is essential for anyone who wants to develop a lifelong joy for movie watching whether it be on video or the big screen.</p>	College: GENE 25 Ministry: JAL4T SCWI: 9.21	Integrated	Fall	Thursdays 2:30 p.m. - 5:30 p.m.
<p>Personal Stress Management (42 hours): This course is designed for you to plan and implement effective stress management strategies in your personal lives. You will develop an informed understanding of the nature of stress and the stress response including causes, signs and symptoms, effects, and impact. The course will then focus on the development of skills to reduce the negative impact of stress and to redirect inevitable stressors towards health and well-being. Students will analyse the impact of stress in their own lives and apply stress management strategies by designing, implementing, and evaluating a personal wellness plan.</p>	College: GENE 57 Ministry: JDC4T SCWI: 9.205	Congregated	Fall & Winter	TBD

<p>Electronic Spreadsheets (42 hours): This course introduces first-year students in the Office Administration - General program to core elements (organize data, complete calculations, graph data, and develop professional looking reports) of MS Excel 2013 spreadsheet software.</p>	College: OFAD 90 Ministry: IBF4T SCWI: 9.21	Integrated	Fall	TBD
<p>Psychology - Police Foundations (42 hours): In this introductory level course, students learn to apply basic psychological concepts including scientific research methods, biological basis of behaviour, perception, states of consciousness, learning, motivation and theories of personality. Emphasis is placed on the causes and consequences of normal and abnormal behaviour.</p>	College: POFP 102 Ministry: HBG4T SCWI: 9.21	Integrated	Fall	TBD
<p>Sociology - Police Foundations (42 hours): In this course, students adopt a sociological perspective for analysis of social events. Studies of societies, culture, socialization, and social change are included. Students study and survey areas relating to Canadian society and culture including social inequalities, social interaction, and collective behaviour.</p>	College: POFP 103 Ministry: HSF4T SCWI: 9.21	Integrated	Fall	TBD
<p>Police Foundations – Criminology (42 hours): This course provides an examination of various theoretical explanations of criminal and deviant behaviour including the sociological, biological, and psychological perspectives. Criminological theory provides an explanation of criminal activity and crime causation. The reality of crime in Canada including victimology is examined through crime statistics and issues of criminal behaviour. The impact of criminological theory on the development and effectiveness of the criminal justice system is discussed with an emphasis on future trends within the system.</p>	College: POFO 201 Ministry: TBD SCWI: 9.207	Congregated	Fall	TBD

Kinston Campus				
Course Name / Description	Course Codes	Class Type	Semester	Day/Time
<p>Welding & Fabrication Level 1 (42 hours): This course develops the basic welding skills required by the Mechanical Technician to enable them to join metals. Students develop the knowledge and ability to safely set-up and operate oxyacetylene and arc welding equipment to weld, braze, and cut to specifications. Students learn about flat and horizontal welding positions using plate steel.</p>	College: MECT 102 Ministry: TLL4T SCWI: 9.211	Congregated	Fall & Winter	TBD
<p>Welding & Fabrication Level 1 - SHSM (42 hours): This course develops the basic welding skills required by the Mechanical Technician to enable them to join metals. Students develop the knowledge and ability to safely set-up and operate oxyacetylene and arc welding equipment to weld, braze, and cut to specifications. Students learn about flat and horizontal welding positions using plate steel.</p>	College: MECT 102 Ministry: TLL4T SCWI: 9185	Congregated	Fall & Winter	TBD
<p>Technical Drawing (42 hours): A Mechanical Technician is frequently required to interpret and prepare information in a graphical format. This course outlines the concepts and techniques of producing mechanical drawings using freehand sketching and conventional drawing methods as well as computer-assisted drafting methods. Assignments are chosen from mechanical applications.</p>	College: MECT 103 Ministry: TBP4T SCWI: 9.21	Integrated	Fall	TBD

Kinston Campus				
Course Name / Description	Course Codes	Class Type	Semester	Day/Time
<p>Plumbing (42 hours): This course will introduce students to the Plumbing Trade. Each student will gain practical hands-on experience by working in the Plumbing shop. Projects will focus on developing fundamental skills needed to pursue a career in the plumbing trade. There will be various projects that each student will safely fabricate, such as residential piping systems using threaded black iron piping, soldering, solvent welded, plastic piping, and mechanical joint and fittings.</p>	<p>College: TRAD 1</p> <p>Ministry: TBD</p> <p>SCWI: 9.21</p>	Integrated	Fall	TBD
<p>Carpentry (42 hours): This course will introduce the carpentry trade; students will gain practical hands-on experience by working in the carpentry shop. Projects will focus on developing fundamental skills needed to pursue a career in carpentry. Projects will include measuring, cutting, and shaping wood and wood products, as well as the construction of a wood-framed structure. During scheduled lab times, theory material will be presented on a one-on-one basis as well as group teaching.</p>	<p>College: TRAD 2</p> <p>Ministry: TBD</p> <p>SCW: 9.218</p>	Congregated	Fall & Winter	TBD
<p>Carpentry SHSM (42 hours): This course will introduce the carpentry trade; students will gain practical hands-on experience by working in the carpentry shop. Projects will focus on developing fundamental skills needed to pursue a career in carpentry. Projects will include measuring, cutting, and shaping wood and wood products, as well as the construction of a wood-framed structure. During scheduled lab times, theory material will be presented on a one-on-one basis as well as group teaching.</p>	<p>College: TRAD 2</p> <p>Ministry: TBD</p> <p>SCW: 9.208</p>	Congregated	Fall & Winter	TBD
